You Are Not MEANT TO FACE CANCER ALONE.

CanCare
A survivor by your side.
CanCare Support Programs

FROM THE MOMENT YOU HEAR THE WORDS “YOU HAVE CANCER”, LIFE CHANGES DRAMATICALLY. CANCARE HAS BEEN CREATING LIFE-CHANGING CONNECTIONS FOR THOSE FACING CANCER AND THEIR LOVED ONES FOR MORE THAN 30 YEARS.

One-on-One Emotional Support
Our one-on-one program is designed to offer a personalized support experience for people living with a cancer diagnosis (survivors) and the people who love them (caregivers). Cancer survivors are matched with volunteers by cancer type, treatment method, age and/or gender. Cancer caregivers are matched with volunteers with a similar relationship to the person with cancer, cancer type, stage, age and gender.

To request a match, visit www.cancare.org/support
CanCare Prayer Support
At CanCare we believe in the power of prayer. We have a weekly Prayer and Praise team that lifts up and prays for the concerns of the cancer community. We invite you to share any prayer concerns or praise reports with us and we will pray for each request and recipient by first name each week.

To submit a prayer request, visit www.cancare.org/prayer or email prayer@cancare.org

Support Groups
Our online support groups offer an opportunity to hear from a CanCare volunteer and others facing a similar experience. You’ll have the chance to share your own experience or find comfort in listening.

Being matched with Leonard was the best thing that ever happened to me. He became my go-to guy throughout my entire cancer journey. Leonard was someone that I felt very comfortable with – if I had to cry, I could cry with him. He helped me survive cancer, and today Leonard is family to me.

– MICHAEL, Acute Myeloid Leukemia Survivor, CanCare Former Client, CanCare Volunteer

I contacted CanCare and spoke to a woman who had faced and won the battle I was fighting. I felt so uplifted and re-energized to continue fighting. Since becoming a volunteer, I have helped numerous women who have faced this rare cancer. We have laughed, cried and just connected on a level that no one can understand unless you have been through this cancer.

– VALERIE, Anal Cancer Survivor, CanCare Volunteer

I love when clients ask me about my journey with cancer and my survivorship because getting to tell them about all the obstacles and setbacks and difficult times I was able to overcome lights up something inside of them. It’s more than just sharing a story, it’s giving hope and igniting a determination to fight so that they too can one day share their own survivorship story.
