

## What is Zen Educate?

Zen Educate enables schools to hire proactive and caring staff at a lower price, through the use of a rigorous vetting process and job management technology.

## What does it enable you to do?

Zen Educate is an online platform that allows schools and education staff to be connected quickly and easily. This gives schools far more control over the supply staff they use.

With the Zen app, schools can see staff profiles and availability, so they can meet their pupils' unique needs more carefully – saving school leaders hours of admin.

Zen Educate connects schools with high-quality staff, all of whom undergo a rigorous vetting process, including an interview, certified safeguarding training and background checks, discussions around behaviour management and constant CPD and upskilling with in-app training, podcasts and blogs, on topics such as SEN and EYFS.

With Zen, there are none of the hidden fees typical of supply agencies, and their transparent pricing has saved UK schools over £7 million to date.

### **What are the Benefits of using *Zen Educate*?**

- Schools can instantly book staff
- Lower cost for high-quality staff
- Rigorous vetting process that goes above and beyond DfE requirements

### **Testimonial:**

**KATE MOYSE**  
Headteacher, Coston Primary School

**"Zen take the time to understand what our children need and then look to provide staff with training and experience to meet those specific needs. I highly recommend Zen to schools - they always provide reliable staff at very competitive rates."**
