Headteacher Chat's Review of CPOMS Staff Safe

What does CPOMS StaffSafe say about their product?

- CPOMS has revolutionised safeguarding in schools. We're always receptive to input from our customers and following extensive feedback, we're delighted to announce the launch of CPOMS StaffSafe.

- Within CPOMS StaffSafe you can upload, keep, record and govern all information regarding adults working within your setting.

- From managing and maintaining your SCR to creating a chronology regarding information about individuals, CPOMS StaffSafe is easy to use, easy to access and easy to manage.'

Briefly:

- CPOMS StaffSAFE is the intuitive system for schools to track, record and report all staff information.
- Enables schools to monitor whole school, group and individual compliance.

What do we think?

- We think it's a highly useful and intuitive tool for schools to track compliance for their SCR and the latest government regulations for staff.
- We like the fact that it's so easy to access and use.
- We love the fully customisable dashboard, clearly showing what needs to be completed and by when, allowing leaders to monitor their whole school.

How will this be of benefit to schools?

CPOMS has proven that they can produce highly effective and easy to use tools for safeguarding in schools, and this will add the extra section for staff, giving leaders a view of their whole school pupils, and staff, which will increase the ability to monitor and manage safeguarding requirements.

'Brilliant for the recruitment process and the Headteacher is able to see very quickly where we are in the recruitment checks process... an excellent way to record checks

and monitor SCR and manage staff documentation...streamlined our SCR process and enables us to see quickly where we are.'

Jacinda Revill, Wooden Hill Primary School

Verdict:

√ It supports schools to ensure it is compliant with all the latest safeguarding regulations.

√ It helps to track patterns emerging for individual staff members, ensuring that they get access to support in a timely manner.

√ Schools can record information about individuals such as performance management and welfare concerns.

√ It's fully customisable, allowing leaders to add the information they need to monitor their individual school.

"We love CPOMS, and now they have released StaffSafe as well, it provides leaders with a thorough and holistic view of safeguarding records for their school."
