

IoT Management

From sensors to analytics & device management, optimise operations & streamline costs

Unlock the power of IoT

In today's dynamic and interconnected world, businesses face mounting challenges in harnessing the full potential of IoT technology. From managing diverse devices to ensuring reliable and secure communication, navigating the complexities of IoT can be overwhelming. That's where our IoT Management solutions come in. With expertise in LoRaWAN, Zigbee, and Bluetooth Low Energy (BLE) technologies, we offer a comprehensive suite of tools and services designed to address your specific pain points.

Say goodbye to the complexities of IoT Management

Our comprehensive IoT solutions built on LoRaWAN, Zigbee, and BLE technologies empower you to overcome connectivity obstacles effortlessly. Experience cost savings, increased productivity, enhance control, streamline operations and unlock the full potential of your IoT ecosystem. Experience a seamless transition from challenges to connectivity with our transformative solutions.

IoT MADE EASY

Seamless integration

Remote monitoring and control

Scalability and flexibility

Enhanced data analytics

Proactive maintenance

Improved security

Smarter IoT solutions

Enhanced operational efficiency

Real-time data and insights empower remote device monitoring, process automation, and data-driven decision-making.

Extensive coverage & range

Combined, LoRaWAN and Zigbee offer broad coverage and range. LoRaWAN enables large-scale Connectivity for smart cities and agriculture, while Zigbee ensures reliable Connectivity in smaller environments like homes and buildings.

Energy efficiency & low power consumption

Zigbee and BLE excel in low power consumption. Combined with LoRaWAN, create energy-efficient IoT solutions for low-power devices.

Our Products & Services

Connectivity

No matter what your needs, we've got the solution

- 5G Fixed Wireless Access
- Low Earth Orbit Satellite (LEO Sat)
- Private Cellular Networks
- In-Building Mobile Coverage
- Wi-Fi
- Point-to-Point Wireless Bridging
- Rapid Broadband Kit
- Business Network Continuity
- Out-of-Band Management
- Fibre Broadband
- Homeowner Broadband

IoT Management

Smarter IoT solutions: From sensors to analytics & device management

Communication

Say goodbye to missed calls with our voice solutions

- VoIP
- Inbound Marketing Numbers

Professional Services & Consultancy

Expert advice to help you plan, implement & manage Connectivity solutions on-site or remotely

I.T. Hardware

Essential I.T. devices all under one roof

Managed I.T. Support

From user to endpoint, as well as the physical I.T. infrastructure, we've got you covered

One.Site, Digital Workforce Management

Your digital construction toolbox to help you manage your workforce onsite
