

# Wi-Fi

## Zero-touch Cloud-managed Wi-Fi with all-inclusive coverage and fewer support calls

### Secure & reliable Wi-Fi connectivity

Wi-Fi deployments can be expensive, time-consuming and difficult to manage. From network design to deployment, our zero-touch configuration Wi-Fi service will have your business and users up and running in no time.

### Wi-Fi – What’s it all about?

It’s not just laptops and mobiles that need to connect in a modern world. Businesses also need to consider people, security and IoT. With so much to manage, it can be difficult to know where to start...

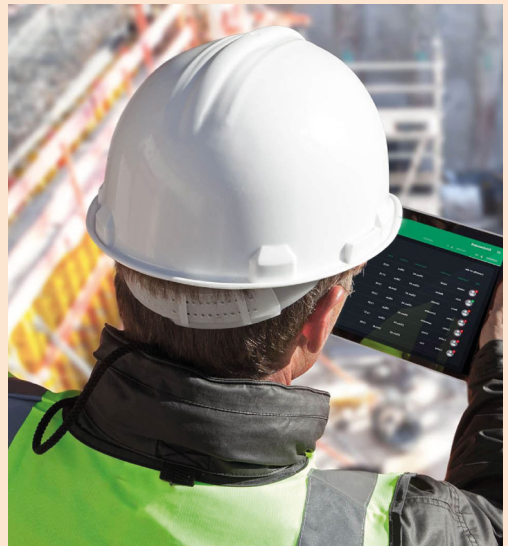

We partner with Ruckus Wireless to ensure you receive a Wi-Fi deployment that works for you, offering connectivity whatever the circumstances. We’ve connected everywhere from site offices to build-to-rent sites (with over 2,000 dwellings) and even the UK Ministry of Defence.

We provide options for in-building and outdoor Wi-Fi connectivity, including planning, design, supply, installation, audit and maintenance services – taking the headache of Wi-Fi management away from you.

**KEEPING YOU CONNECTED**

<b>RF Survey included</b>	<b>Zero-touch deployments</b>	<b>Wi-Fi 6</b>	<b>IoT devices supported</b>
<b>Multi-site dashboards</b>	<b>User analytics</b>	<b>Full UK coverage</b>	<b>24/7 support</b>

### Expert deployment, monitoring & management of your distributed wireless network

### Visibility & control from anywhere

A single-pane-of-glass view of your WLANs, connected APs and clients across multiple sites. View real-time and historical data on applications, traffic, clients and more.

### Comprehensive coverage

The latest Wi-Fi standard paired with a complete RF design – meaning no more Wi-Fi not spots.

### Zero-I.T. activation

Enables users to self-activate devices for secure access to your wireless networks, with no manual configuration required.

# Our Products & Services

## Connectivity

No matter what your needs, we've got the solution

- 5G Fixed Wireless Access
- Low Earth Orbit Satellite (LEO Sat)
- Private Cellular Networks
- In-Building Mobile Coverage
- Wi-Fi
- Point-to-Point Wireless Bridging
- Rapid Broadband Kit
- Business Network Continuity
- Out-of-Band Management
- Fibre Broadband
- Homeowner Broadband

## IoT Management

Smarter IoT solutions: From sensors to analytics & device management

## Communication

Say goodbye to missed calls with our voice solutions

- VoIP
- Inbound Marketing Numbers

## Professional Services & Consultancy

Expert advice to help you plan, implement & manage Connectivity solutions on-site or remotely

## I.T. Hardware

Essential I.T. devices all under one roof

## Managed I.T. Support

From user to endpoint, as well as the physical I.T. infrastructure, we've got you covered

## One.Site, Digital Workforce Management

Your digital construction toolbox to help you manage your workforce onsite
