## NANO BROW STROKES

Nano Brow Strokes requires the use of needles that help place the pigment into your skin. Using hair-like strokes, the pigment penetrates your brow skin thus leaving nice strokes that look like real hair.

LASTS UP TO 12 MONTHS

## MICROSHADING

Microshading gives the brows the look of wearing a bit of brow makeup, but it doesn't wash off as makeup does. It's done by implementing pigment into the skin underneath the brows, giving it a shade that gives the illusion of fullness.

LASTS UP TO 12 MONTHS

## COMBINATION OF NANO BROW STROKES & SHADING

Combination brows are characterized by feathered hair strokes with powdered finish. This is what creates the added definition that's so prominent.

LASTS UP TO 12 MONTHS
