Flat Appearance & Low Profile

STANDARD RACQUET
COIL ZIPPER
(Item Code:RC)

Reduced chain thickness by approximately 15%*

WOVEN-IN TOUGH
ZIPPER
(Item Code:EYL)

*This value may vary by chain size, color.

[Zipper chain cross section]

High Performance Abrasion Resistance

YKK WOVEN-IN TOUGH ZIPPER is precision engineered to pass tough abrasion resistance tests.

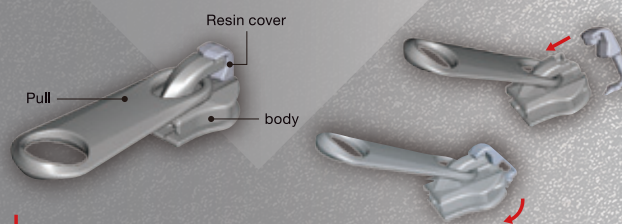

↳ Higher abrasion resistance compared to our standard racquet coil zipper.

Slider Repair Option

New innovative slider system allows zipper pull tab replacement.

↳ Innovative snap-in part for quick and easy slider repair !

Please note:

- Please test zipper performance in actual applications prior to placing orders.
- Available in chain and slider only (not assembled zippers).
- Dye to Match(DTM), reverse use and enamel slider finishes are not available.
- YKK takes no responsibility for the change in quality and performance of its products caused by parts manufactured by a third party other than YKK or processes carried out by parties other than YKK.
