

AquaGuard® NATULON®

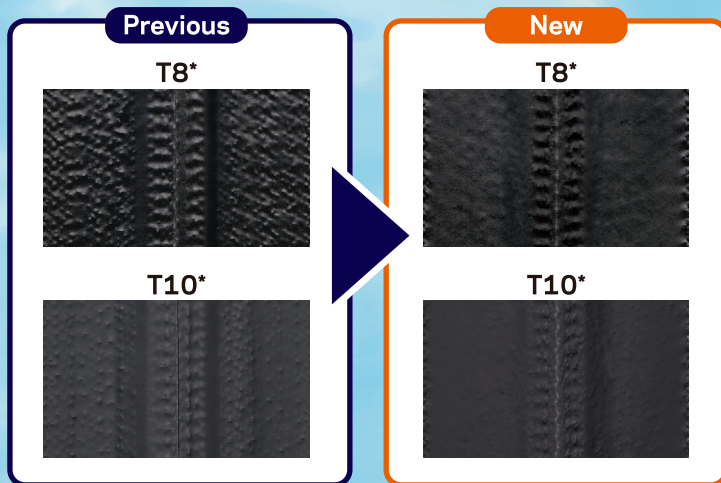

recycled polyester tape
PFAS compliant water repellent finish

YKK™

Little Parts. Big Difference. >>>

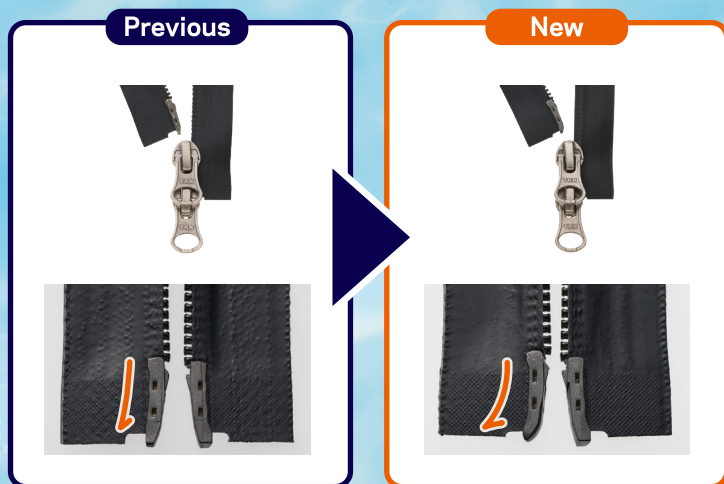

AquaGuard® NATULON® Improvements

Chain

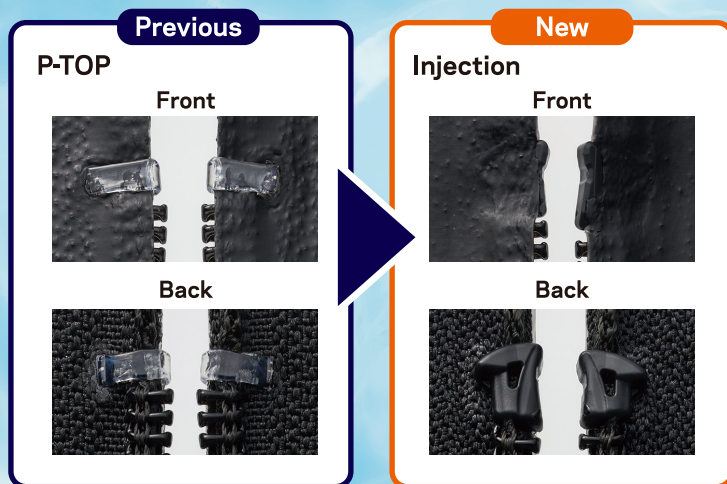

* This is the item code.

No.5 Two-way open parts

Top-Stop

- ✓ recycled polyester tape reduces GHG emissions
- ✓ PFAS compliant water repellent finish
- ✓ 20-40% smoother in operation force
- ✓ updated to cleaner smoother appearance
- ✓ easier to insert two-way open-end

* YKK has classified "PFAS compliant" fastening products as containing less than 50 ppm organic fluorine whereas "PFAS non-compliant" fastening products contain 50 ppm or more organic fluorine. However, please note that the definition of the term "PFAS compliant" does not imply conformity with a specific, or any, PFAS regulations in any country or region and that this definition of the term "PFAS compliant" may be subject to change based on trends and updates on PFAS regulations in any country or region. * Compared to conventional AquaGuard®
