SMART SOLUTIONS FOR VEHICLE OPERATIONS

THE RISE OF MOBILITY AS A SERVICE WILL SIGNIFICANTLY INCREASE THE SHARE OF VEHICLES IN FLEETS!

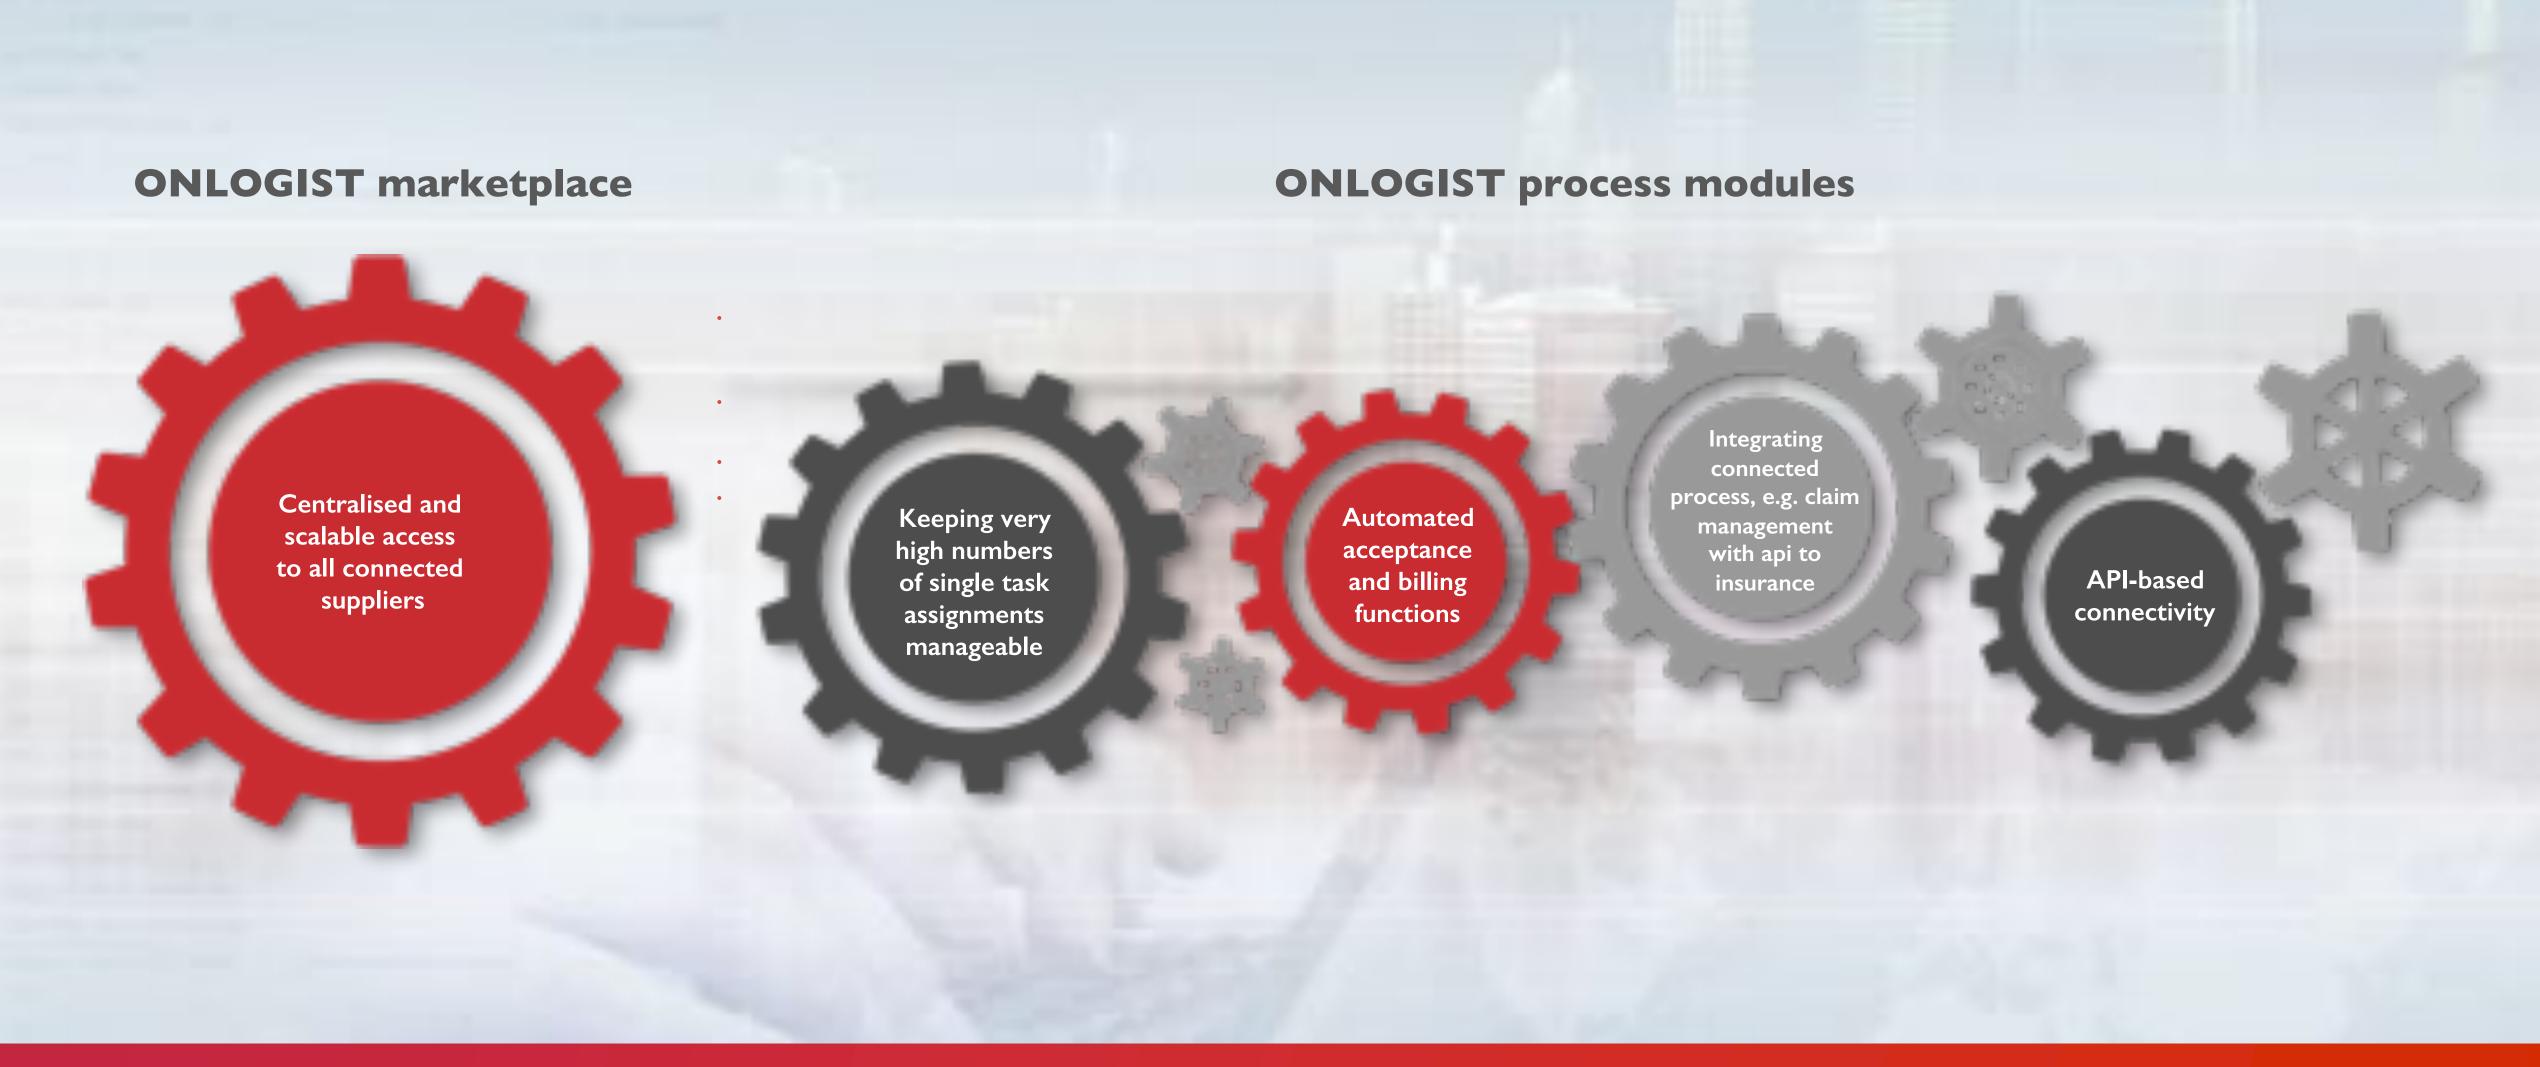

USING EXTERNAL SERVICES FOR FLEET MANAGEMENT IS A HUSTLE

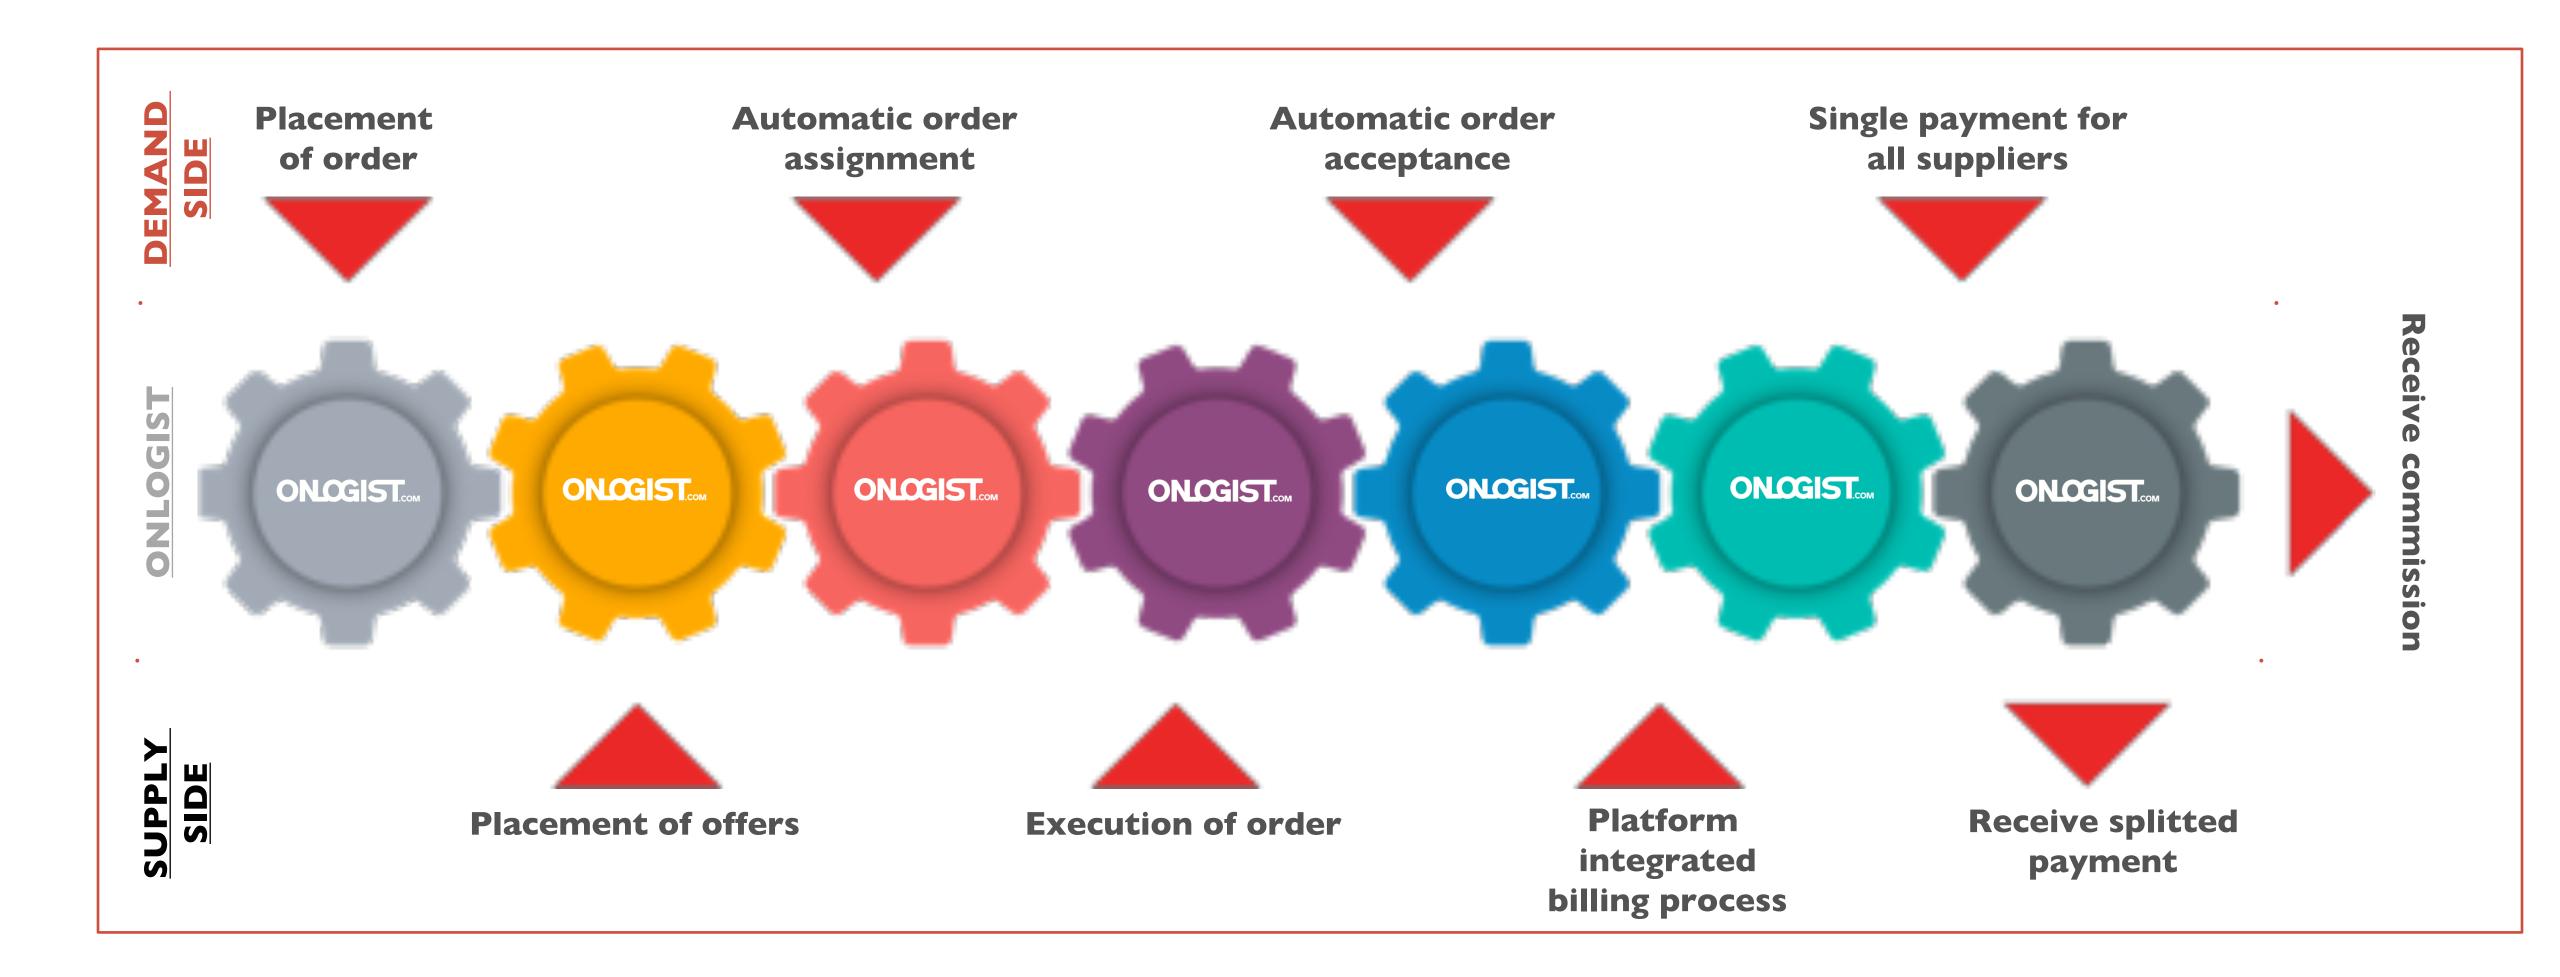

ONLOGIST PROVIDES A CENTRAL ACCESSPOINT TO ALL SUPPLIERS AND STATE OF THE ART PROCESS MODULES

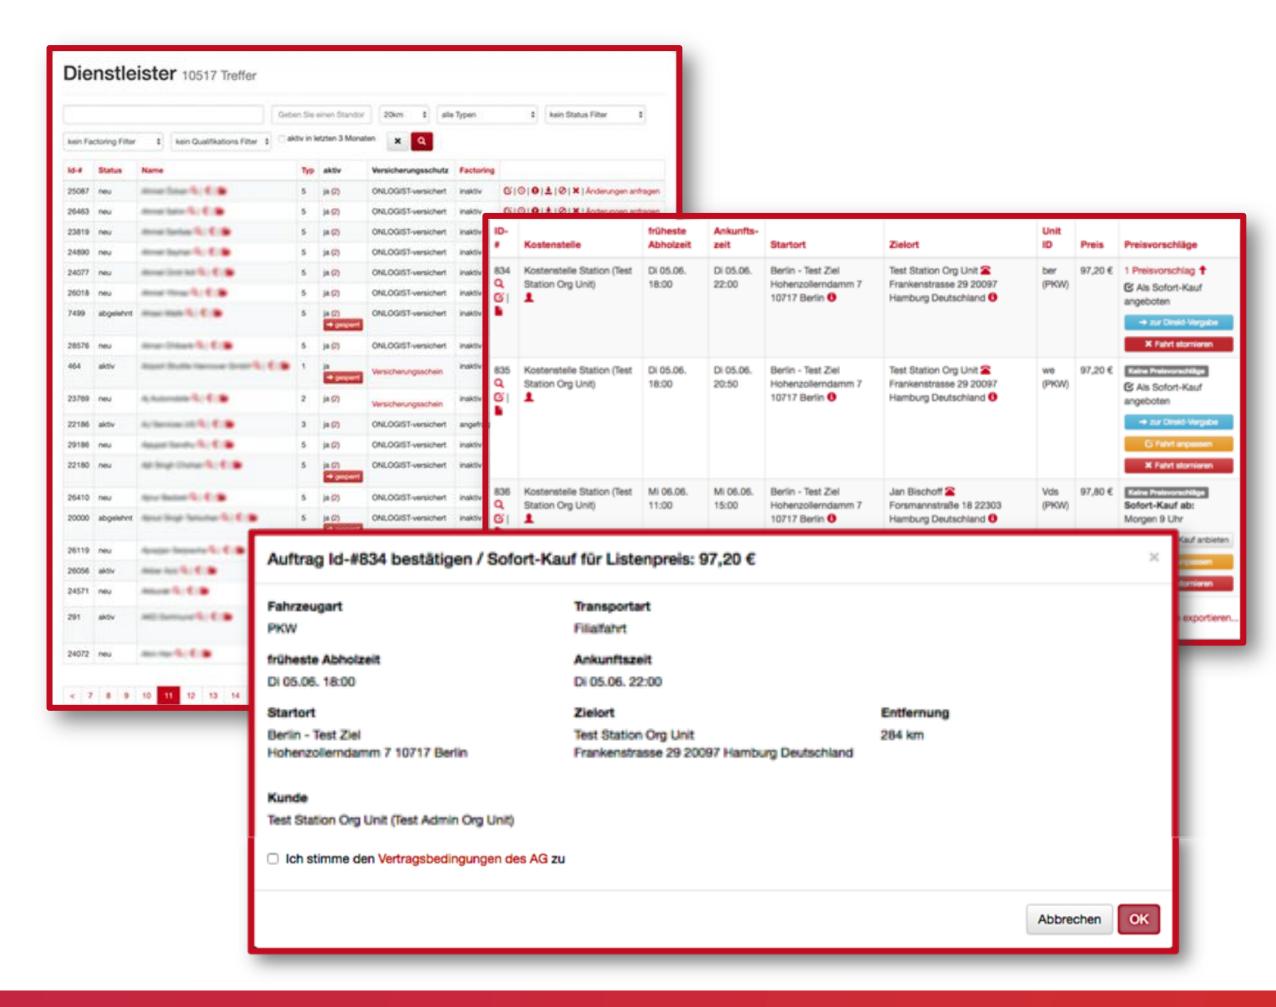

ONLOGIST-MARKETPLACE IN A NUTSHELL: ASSIGNING AND CLEARING SERVICE ORDERS

ONLOGIST ENABLES CUSTOMERS TO ASSIGN ORDERS TO THOUSANDS OF SUPPLIER IN SHORT TIME NOTICE

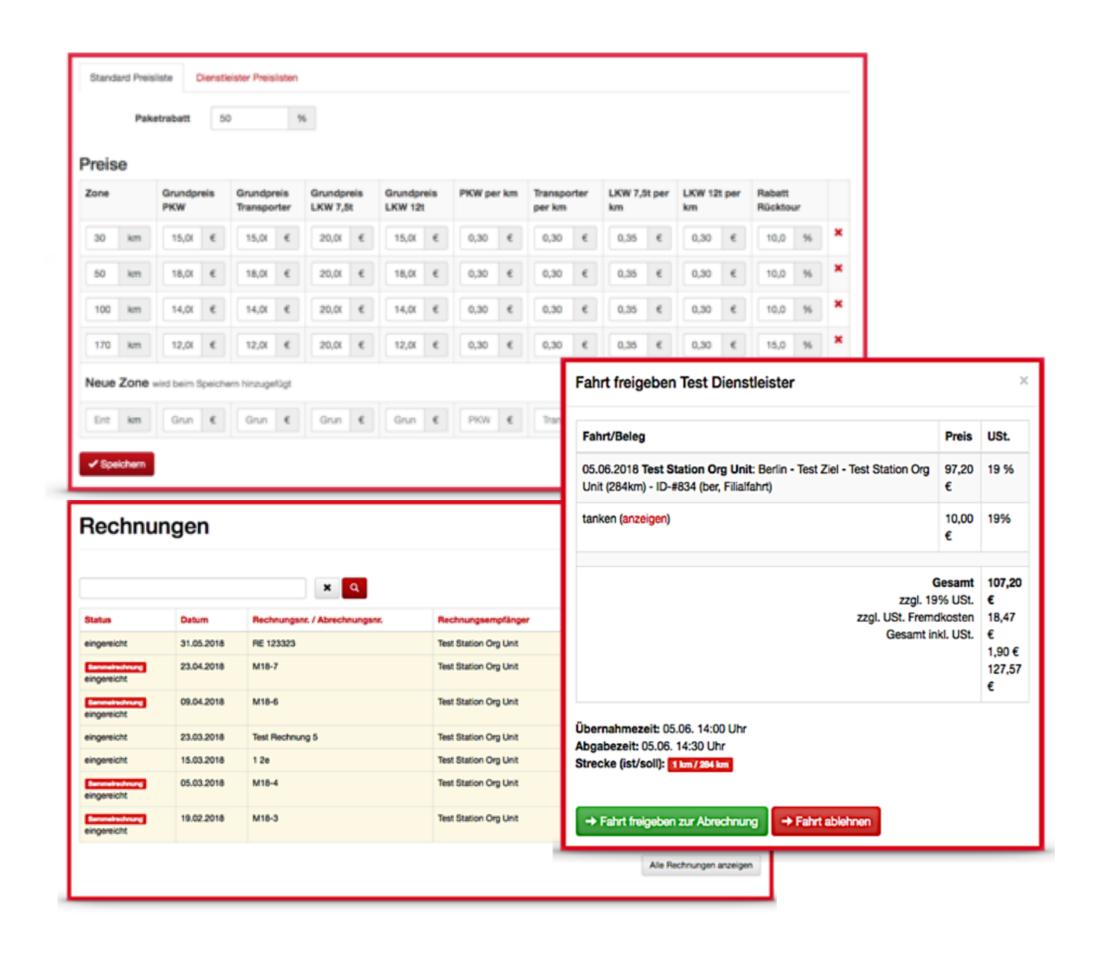

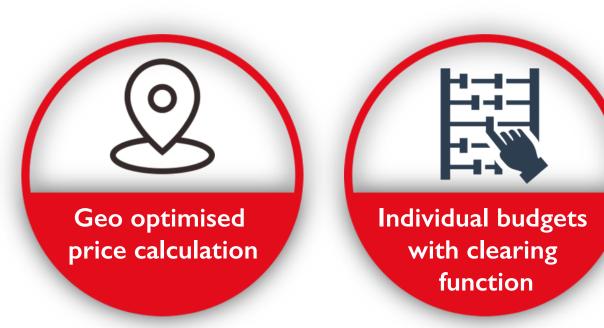

Only matching suppliers see orders of customer

Automatical order input by api

80% of orders are assigned in less than 10 min.

ONLOGIST PROVIDES EFFECTIVE COST CONTROLLING AND FRAUD AVOIDING FEATURES

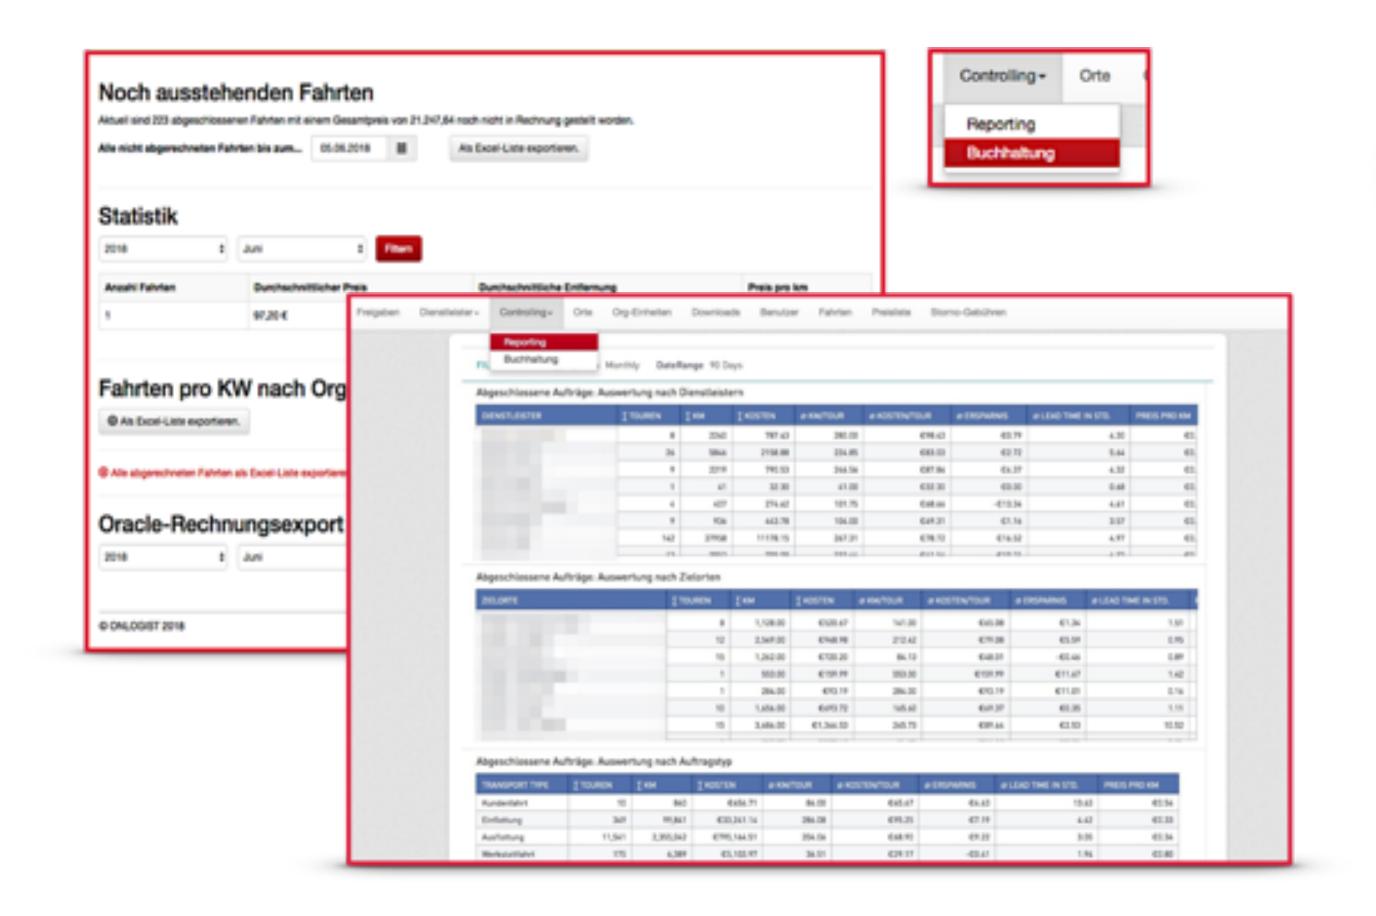

Prices are calculated automatically based on a geocoordinates and price matrix defined by customer

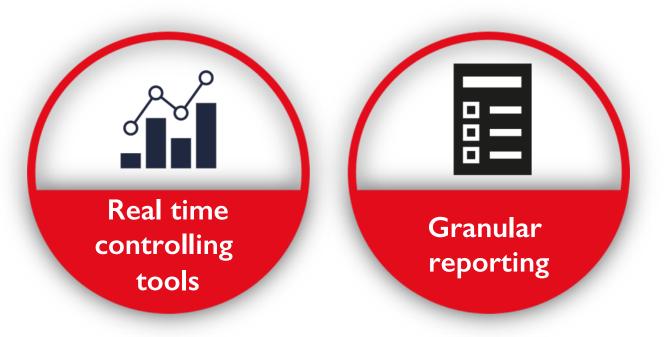

2-factor acceptance on extra costs, e.g. fuel

Automated invoicing is connected to original price and potential after-performance agreements, e.g. price reductions

DEEP LEVEL TRANSPARENCY DUE TO GRANULAR CONTROLLING-TOOLS

Real time analysis directly on db

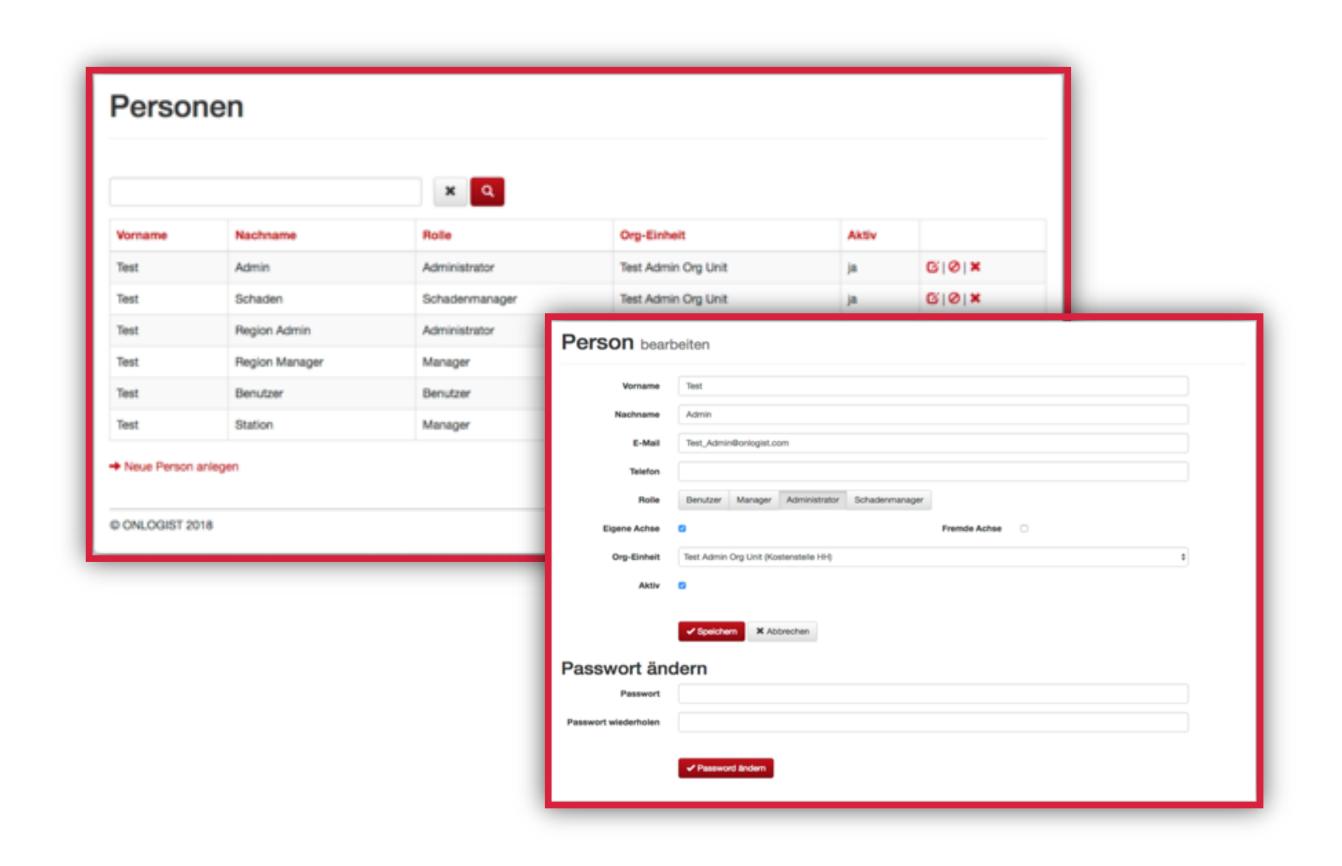

Performance of employees, stations or regions are comparable in real time

Individual dashboards for customers

Download file to import all relevant data into your accounting software, e.g. SAP, oracle, datev, etc. (feature is also provided to service providers)

ONLOGIST MEETS HIGHEST STANDARDS OF DATA SECURITY

ONLOGIST-solutions meet latest european data security standards

Accounting-features meet German GBDO-Standard

Required licences for payment-features are given

WE HAVE A STRONG TRACKRECORD IN HELPING OUR CUSTOMERS TO IMPROVE THEIR WAY OF COOPERATING WITH SUPPLIERS

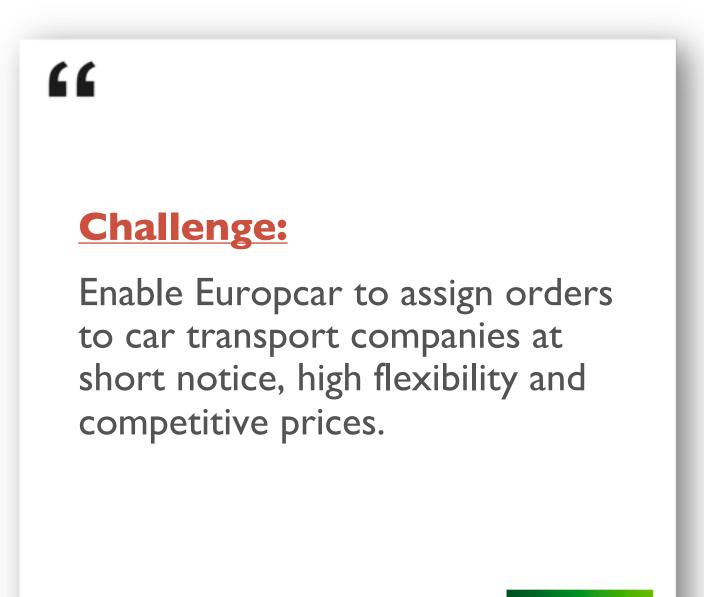

A EUROPCAR COMPANY

BEST CASE I: MARKETPLACE FOR DRIVEN CAR TRANSPORTS FOR EUROPCAR

Europcar moving your way

BEST CASE 2: INTRODUCING A NEW LEVEL OF CUSTOMER SERVICE TO THE CAR WORKSHOP BUSINESS WITH A.T.U

Challenge:

Enable 2.800 Car workshops to offer pick up services.

Result:

Successful pilot with 60 workshops.

Currently rolling out in Germany.

A.T.U wants to go for Europe.

ONLOGIST is to be API-connected in 2020.
