In light of recent concerns raised by some of our valued clients regarding a video featuring one of our minority shareholders expressing his personal views on the Palestine-Israel conflict, Africa Padel, a prominent provider of recreational activities, issues this statement to address the situation.

We want to emphasise and make it clear that Africa Padel, as a company, remains steadfastly neutral on political matters. Our primary focus has always been to provide unparalleled recreational experiences. Any personal opinions expressed by individuals associated with Africa Padel are strictly their own and do not represent the official position of the company.
