

RING SIZING CHART

Finding Your Ring Size

1. Print this page. Make sure to select, “do not scale”, “actual size”, or “custom scale: 100%” in the print options depending on your application
2. For accurate sizing when printing this document, please ensure the following:
 - a. In the USA: The left ruler should measure three inches
 - b. In the U.K.: The right ruler should measure twenty millimeters

3. Select a ring that properly fits the intended finger. If you don't have a ring, skip to step 6.
4. Match one of the circles with the inside of the ring; if the ring falls between two of the circles, select the half size between the two when ordering.
Example: between 7 and 8, select 7 1/2 when placing order.
6. If verification of rulers cannot be correctly achieved; please visit your local jewelry store for most accurate sizing.
