

Diversity and inclusion of thought, skill, knowledge, and culture make Bulk Carriers (PEI) Limited more competitive, resilient, and better equipped to meet our customers' needs. Diversity strengthens us by promoting unique viewpoints and challenges each of us to surpass our traditional frames of reference.

We are committed to:

- Attracting, developing, and retaining a premier workforce
- Actively cultivating a productive work environment where individual and cultural differences are not only respected but also valued
- Understanding that our unique and dedicated people are at the heart of our success
- Creating an environment that enables every employee to make meaningful contributions and excel based on their performance
- Paying our drivers by the hour, not by the mile

Bulk Carriers (P.E.I.) Limited revolutionized its long-haul driver compensation last year, moving from the long-time industry standard of per mile, to per hour, using our electronic logging device. Our drivers now experience that time is their money.

If you are a long-haul truck driver, considering changing lanes and want to work for a diverse and inclusive employer, consider applying to become one of our important team members by visiting driveforbulk.ca
