RANCHO LOS LOBOS

Holistic Healing Retreat

RECHARGE YOUR BATTERIES IN ANDALUSIA

We support you
on the way!

With Clemens Hart and Claudia Wolf we have a strong team of two very successful therapists on the topic of ‚Holistic Healing‘ on board.

Due to the wide range of competence and different treatment techniques with **homeopathy** as well as **kinesiology**, many disease patterns can be successfully treated.

CLEMENS HART

As an anesthesiologist in the operating room, he realized that the causes of a disease are never treated, but always only the symptoms. From this arose in him the longing for a cause medicine, which he found in natural medicine. As an expert in **RAC pulse palpation**, he is able to decipher often seemingly insoluble disease patterns in a short time.

CLAUDIA WOLF

Because Claudia likes to communicate, she learned several body-oriented professions and finally also kinesiology as a method of communication with the unconscious part in us. Through her work with **kinesiology**, she developed a sense for feeling the mental patterns as the cause of a wide variety of physical and mental ailments.

TREATMENT METHODS

- Auriculomedicine with interference source diagnostics
- Ear acupuncture
- Kinesiology
- Flower essences
- Homeopathy
- Coaching and tips for a healthy lifestyle
- Food intolerance testing
