2023 YouthCARE Art Competition

Secondary School Winner
Indiarna Catlin
Eastern Hills Senior High School

YouthCARE's Art Competition in 2022 was met with overwhelming support from our high school communities. So this year, we decided to open the competition to primary schools, creating opportunities for all students across Western Australia to share their creative talents. We received over 300 artworks that beautifully depicted the themes of 'Hope' and 'Friendship' from Secondary and Primary students respectively. Our congratulations to Indiarna Catlin and Scarlet Kruis for their winning works of art.

Innovation & Perspective

To us, innovating means looking at opportunities differently, with fresh perspectives to create better outcomes for everyone. It is our heart to care for the community that drives our people to take a fresh approach to standing in the gap, fulfilling community needs through new programs, initiatives and services.

Last year, our Board and Executive Leadership Team developed YouthCARE's Strategic Plan, paving a 5-year pathway for growth. The growth of our people, services, organisation and partnerships – enabling our teams to intentionally address both current and future needs with passion and purpose.

This strategy demonstrates our commitment not only to the wellbeing of students but to their long-term educational outcomes.

STRATEGIC PLAN 2023-2027

GROWING OUR:

The 2022 report published by the University of Western Australia concluded that a child who is nurtured, in all 6 of the NEST pillars, can thrive in their education.

Which is why our professionally qualified chaplains and volunteers adapt to support the needs in their local schools, drawing on evidence-based practices to ensure that no individual or community is left behind.

We trust this annual report leaves you inspired and encourages you to look at circumstances from another perspective and explore opportunities to partner in our efforts to improve the educational outcomes for students and communities across Western Australia.

Unwavering Support for our Mission

This past year has once again highlighted the important role YouthCARE plays in supporting the wellbeing of school communities. We've addressed the challenges faced by students, parents and school staff in 2023 with an unmatched commitment to meeting their needs, driven by our calling which is answered daily by our dedicated team.

I wish to extend my heartfelt thanks to the young people, families, and communities we serve for their unwavering dedication to growth, inspiring every facet of our mission. Special appreciation goes to our diverse partners – government bodies, businesses, not-for-profits, churches and individual contributors. Together, we've witnessed our collective efforts come to fruition, fostering deep connections that support communities.

Glenn Bergsma

YouthCARE Chairman of the Board

Glenn Bergsma – YouthCARE Chairman

Demand for our support mechanisms, programs and services increased significantly last year in schools across Western Australia. Despite the independent studies and reports published in 2023 that reflect both the need for and benefits of school chaplaincy, it is difficult to voice the enormity of the contributions made towards building brighter futures. However, the stories told and shared from around our state's communities leave no doubt that the dedication of our chaplains, volunteers and staff is positively impacting lives.

It was also a year in which YouthCARE led the industry, supporting chaplaincy across the state and acknowledging its value to the broader community. I would like to recognise our CEO and Executive Team for raising awareness and amplifying the benefits to those we serve.

our mission

**To express God's
love and presence
in educational
and other
communities
throughout
Western Australia.**

Honouring the commitment of those fulfilling YouthCARE's mission, I express my gratitude to the Board for their wisdom and passion in governing YouthCARE and serving God with humility and diligence. I await 2024 with eager anticipation of how we can best serve Him.

The future is bright and full of possibilities for YouthCARE and the communities we serve. With a strategic vision embracing innovation and a deep-seated commitment to our core values, we are ready to not only continue our vital work, but enhance it. Our path forward aims to support more young people and families, to strengthen communities across Western Australia. I invite you to join us in this pursuit as we embark on another year of service, growth and heartfelt dedication by the grace of God.

Building Momentum Towards Brighter Futures

It is with immense gratitude that I present the 2023 Annual Report for YouthCARE – a year marked by significant achievements and unwavering commitment to our mission of reflecting God's love and presence in educational and other communities, through chaplaincy and Christian Values Education.

This year, we proudly hosted the inaugural State Chaplaincy Conference, a milestone event that brought chaplains together from a diverse range of sectors and industries. The conference provided a platform for professional development, fellowship and networking, reinforcing the importance of our collective mission. It was a testament to the strength of our community and our dedication to recognising the impact of chaplaincy services across Western Australia.

Tamsyn Cullingford
YouthCARE CEO

Tamsyn Cullingford – YouthCARE CEO

We were honoured to partner with His Excellency the Honourable Chris Dawson AC APM, Governor of Western Australia and Mrs Dawson, our patrons, to present the Governor's Chaplaincy Awards. This initiative recognised the outstanding contributions of chaplains across sectors, with most award categories awarded to YouthCARE Chaplains.

Our regional reach was reaffirmed with YouthCARE supporting over 220 regional/remote schools and chaplains recruited across the state. Our chaplaincy services were extended through drive-in, drive-out (DIDO) and fly-in, fly-out (FIFO) to the Wheatbelt, ensuring that no community was left unsupported.

In response to the cost-of-living crisis, YouthCARE stood in the gap, providing crucial support to families and communities. I was pleased to present at a Federal Senate Inquiry into the cost-of-living and the incredible impact of YouthCARE Chaplains and volunteers. Discussions included: a forecast 27% increase in breakfast club meals, distribution of 1,172 emergency gift cards, 8,568 food hampers, and essential educational supplies and uniforms to over 9,000 students.

Our chaplains achieved an unprecedented level of service hours, reflecting both the growing demand for YouthCARE's chaplaincy services and the dedication of our remarkable team faithfully supporting our communities.

Finally, we celebrated the completion of our Everyday Matters™ (Christian Values Education) Curriculum. This achievement is the result of the commitment and service of a remarkable team, and it represents a fresh perspective on values education, tailored for Western Australian state schools.

To our churches, board members, staff, volunteers and supporters, I extend my heartfelt thanks. Your unwavering support has been the driving force behind these achievements, and together, we continue to make a lasting impact on the lives and wellbeing of the young people we serve – instilling hope in the next generation.

Yes, my soul, find rest in God;
my hope comes from Him.
Truly He is my rock and my
salvation; He is my fortress,
I will not be shaken.

Psalms 62:5-6

Setting our Sights on Growing our Services

In a year where YouthCARE again performed strongly from an operational perspective, the significant impacts of our people and programs made a real difference to families and individuals within school communities throughout WA.

This year, the numbers reflect increases in staff and parents drawing support from our organisation's services and connections to communities, with an overall increase in meetings and schools in which we serve. With health and wellbeing making up the majority of conversations followed by relationships, it was pleasing to see that our resource allocation was helping where help was needed most.

Our Principals' Chaplaincy program expanded into the Pilbara region this year, now providing support for 250 regional School Principals in a confidential and safe environment. Independent research conducted by Humanlink in 2023, recognised the role of Principals' Chaplain as providing unique and valuable support, helping School Principals to navigate the increasing demands and complexities of their role.

Dean Caddy

YouthCARE COO

Our Christian Values Education program for WA primary schools saw the introduction of our new curriculum, Everyday Matters™, with 2,000 students participating weekly. In addition, development begun on a contemporary song which will highlight values from within the curriculum and create a positive classroom atmosphere for students to engage in values learning.

I also want to thank our incredible staff and volunteers, as well as the many local community organisations and Christian churches throughout WA for your contributions to making a difference within school communities. Every person plays an important part in the successful outworking of YouthCARE's vision as we grow a brighter future for local school communities by connecting them with our heart for care, compassion, respect and service. I very much look forward to continuing the journey with everyone in 2024.

Facilitating the wellbeing of Western Australian government school communities is a collaborative effort, and we express our gratitude for the generosity and dedication demonstrated by our numerous volunteers and contributors of in-kind donations.

Our extensive experience, resources, relationships, and far-reaching impact enhance the value of every contributed dollar.

We express our sincere thanks for the invaluable and continuous support received in 2023 from churches, government entities, businesses, and the wider community.

State Chaplaincy CONFERENCE

CARING THROUGH
CONNECTION

With escalating community demand for wellbeing services across Western Australia, the State Chaplaincy Conference served as a platform to connect chaplains from various industries as they support the mental health and wellbeing of our society.

Featuring renowned speakers, the conference provided valuable insights and guidance on critical topics, ensuring the real-world challenges of organisations and communities were addressed professionally and sensitively.

This ground-breaking event not only offered high-quality professional development but also facilitated connections among chaplains across our state. This networking opportunity allowed the sharing of unique ideas and strategies, each aimed at making a positive impact on the wellbeing of their respective communities.

Over two days, attendees curated their own conference experience by selecting sessions from three distinct streams: Trauma and Resilience, Gender and Sexuality, and Cultural Capabilities.

Deep consideration was given to the sensitivities of the Western Australian communities, to ensure everyone returned to work ready to implement new strategies, enhance their workplace and better respond to the needs of their community.

The overwhelmingly positive feedback reinforced our commitment to supporting chaplaincy through our bi-annual event.

Supporting Chaplaincy

“Every speaker was passionate, thoroughly knowledgeable, thought-provoking and engaging to listen to.”

“I felt proud that YouthCARE have created an opportunity for other chaplains to join in the wonderful networking that school chaplains get and that we are the front-runner in connecting chaplains around the country and across different employments.”

on the Ground

“Excellent topics and excellent speakers. All of the streams I attended were well presented and very relevant to my work as a chaplain.”

“It was great to see well deserving chaplains get recognised at the Award night.”

“I was totally inspired... absolutely loved every moment.”

Recognising Excellence

The Governor's Chaplaincy Awards presented a unique opportunity for His Excellency the Honourable Christopher Dawson AC APM, in partnership with YouthCARE, to recognise the good work and inspiring stories from chaplains across diverse industries such as aged care, defence, education, emergency services, health, mining, social services and sport.

Submissions were assessed by an independent judging panel chaired by Mrs Dawson, Co-Patron to YouthCARE, with the winning candidates demonstrating an unwavering commitment to the wellbeing of individuals and their communities.

The ceremony, held in conjunction with the inaugural State Chaplaincy Conference, celebrated and recognised chaplains across the state who went beyond the expectations of their role, building up those facing challenges, disadvantage and trauma.

It was an honour to be able to come together with likeminded organisations and individuals in support of those that serve our Western Australian communities.

Leading the Way on Values Education

Our personal values play a significant role in shaping our everyday decisions and these are often instilled during our time in primary school. Recognising this, YouthCARE created a faith-based curriculum to deliver quality, values-based classes to state schools in WA.

Aligned with the Nine Values for Australian Schooling and the Western Australian Curriculum General Capabilities, the curriculum, Everyday Matters™, assists schools to deliver an engaging alternative to traditional lessons.

Feedback on Everyday Matters™ has been overwhelmingly positive with one Principal noting that students eagerly anticipate it on non-program days.

The success of Everyday Matters™ has led to new opportunities for the program. YouthCARE's Christian Values Education Team announced a new partnership with the University of Notre Dame's School of Philosophy and Theology that saw trained theology students delivering the lunchtime program at a local school.

Further reinforcing the values from the lessons, the team also engaged a local musician to produce a song for volunteers to use when delivering the program.

Thank you to all of the individuals and partner organisations who collaborated on this project, creating a curriculum that is not only well thought out but addresses what matters most to students.

YouthCARE

Rick Van Sant

Head of Corporate Services

This year the ongoing demand for our services was addressed through the Corporate Services Team's optimisation of internal systems for growth, and the development of new structures and processes for the whole organisation.

Our focus is to equip YouthCARE's people and services on the ground, so they are better supported to fulfil their given roles. Examples include a new recruitment platform which facilitates smoother onboarding for chaplaincy applicants as we welcome more people to the wellbeing sector, upgraded finance systems which optimise our internal processes and a renewed focus on gold level data security so sensitive information remains secure in an ever-evolving digital landscape.

Looking forward, we are passionate about cultivating new opportunities for the organisation which will support YouthCARE's mission and inspire our people to nurture their God-given gifts.

Rick Van Sant – Head of Corporate Services

Executive

Marlon Forrester

Head of Marketing & Communications

Marlon Forrester – Head of Marketing & Communications

e Reports

In 2023 we saw an increase in the need for wellbeing and mental health support through chaplaincy services and in response, new support initiatives were developed.

A successful pilot program, Pastoral Care Engagement Officer for primary schools, helped bridge the gap between families and the school to re-engage the students with learning.

There has been increased demand for our accredited Pastoral Critical Incident Response (PCIR). These teams were deployed to over 40 critical school incidents with 23 deployed to provide support in three evacuation centres during recent bushfires.

Groundwork for our regional drive-in, drive-out (DIDO) chaplaincy has been set, paving the way for expansion of chaplaincy service to 12 Wheatbelt and Midwest schools in 2024.

Darlene Herbert
Head of Chaplaincy

Darlene Herbert - Head of Chaplaincy

Supporting those that support our growing school communities by telling their stories lays at the heart of what we've strived to achieve in 2023.

Our team of content, media and design specialists have been able to illustrate the importance of the work done by our organisation's dedicated chaplains and volunteers, making their achievements accessible to all. With an increased focus on being in community, we visited breakfast clubs, events in regional areas and brought Free Coffee Friday to local primary schools to create opportunities for carers and families to come together in support of wellbeing.

2024 will hold even more opportunities to share the positive impact of YouthCARE's work from nationally recognised contributions, to walking with individuals that benefit from genuine care, compassion, respect and service.

PCIR

YouthCARE's Pastoral Critical Incident Response (PCIR) serves as a lifeline to school communities during crises. Headway Psychology provides specialty training to chaplains so they can deliver psychological first aid in response to critical incidents like bushfires and sudden deaths. PCIR chaplains are adept at identifying individuals at risk of trauma and connecting them with appropriate services, providing comprehensive wraparound support.

This year, our team had the privilege of supporting Wanneroo residents during a fire that destroyed over 1,900 hectares of land, including farms and residential properties, leading to widespread evacuations. Collaborating with the Department of Education (DoE)

and the State Welfare Emergency Committee (SWEC), our team was present to offer support as community members faced the heart-wrenching news of losing their homes. Amid this awful scenario, the PCIR chaplains offered a calm and respectful presence, walking alongside people on what may have been their worst days.

Programs

Part of YouthCARE's unique offering to school communities includes tailored programs developed and facilitated by our team to support the social and emotional learning, resilience and growth of student groups.

G.R.I.T. and Peer Skills are among the programs that our chaplains successfully implemented throughout the year at their respective schools. They collaborate with the student services team to pinpoint key areas for growth and the target audience, and customise the delivery to fit their context – incorporating local scenarios within the program to enhance student development.

YouthCARE Chaplain Sean O'Dea led the G.R.I.T. program this year as an intensive session during Kent Street Senior High School's Student Leadership Camp. Thirty-two student leaders, spanning five year levels, participated in the experiential learning process. This included a series of challenges and group reflections to foster resilience, enabling effective communication and collaborative work among peers.

Student feedback emphasised how the program instilled the confidence and voice needed for their newly elected positions.

Expanding Services

Recognising the importance of engagement in students' formative schooling years, YouthCARE, in partnership with Western Australia's Department of Education, delivered a pilot program in the regional centre of Albany.

The Pastoral Care Engagement program is an independent resource, supporting state school students – increasing engagement, attendance and promoting positive social and emotional wellbeing to secure long-term educational outcomes.

Research* concluded there was no "safe" threshold for school absence, as every day holds a measurable impact on educational outcomes. So, students with less than 80%

attendance, often from challenging socio-economic or culturally and linguistically diverse backgrounds were identified by Spencer Park Primary School for the trial. The Pastoral Care Engagement Officer then engaged the school, community and family using tailored strategies to build a sense of connection between the student and the school.

The program delivered an increase of up to 27% attendance in participating students with additional families seeking the support of the program.

We are pleased to announce that in 2024 the program will be proudly supported by a Telethon grant, enabling the initiative to reach additional regional areas.

* Hancock, K. J., Shepherd, C. C. J., Lawrence, D., & Zubrick, S. R. (2013). *Student attendance and educational outcomes: Every day counts. Report for the Department of Education, Employment and Workplace Relations, Canberra.*

Free Coffee Friday

Free Coffee Friday is a fun-filled event that YouthCARE and its chaplains run, to give back to local school communities in Western Australia.

Relaunched in term 4, in collaboration with the breakfast club, parents were invited to kickstart the day at school with their children. They enjoyed free barista-made coffee and breakfast, while students concluded their week participating in activities, giveaways, and fun challenges that got everyone excited about school and wellbeing.

Principals and school staff have been delighted with how the event helps to grow a sense of connectedness within the school community by encouraging parental engagement.

"Free Coffee Friday featured the highest attendance on school grounds from parents and community members in a very long time," said Kevin Brady, Gingin District High School.

Keep an eye on our socials for updates on where we are headed in 2024!

Focusing on wellbeing in school communities is a priority for us in Western Australia, as well as nationally, with over 3,000 public schools engaging chaplains in 2023. The National School Chaplaincy Association (NSCA) actively advocates in parliament for continued support, representing key participants in the Federal Government's National School Wellbeing Program across every state and territory, including members such as Scripture Union Australia, YouthCARE, Korus Connect and Schools Ministry Group.

YouthCARE CEO Tamsyn Cullingford, serving as NSCA Chair, played a pivotal role in advocating to the Government, presenting at inquiries and fostering relationships with politicians nationwide. This effort led to the establishment of the Parliamentary Friends of School Chaplaincy, a non-partisan forum co-led by Senator Matthew O'Sullivan and David Smith MP, providing parliamentarians a platform to engage with Chaplaincy Service Providers on matters related to School Chaplaincy and the National School Wellbeing Program.

Hosting a launch event with the Speaker of the House of Representatives and Breakfast Club for parliamentarians at Parliament House, this newly established forum saw approximately 50 Senators and Members of Parliament publicly show their support for the wellbeing of school communities throughout Australia.

Senator Matt O'Sullivan and Senator Helen Polley at the Parliamentary Breakfast Club in Canberra.

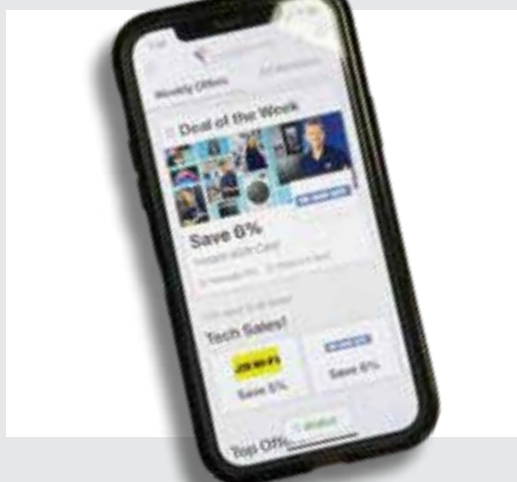

Refreshing our Brand

YouthCARE's marketing capabilities expanded over the past 12 months to meet our increasing opportunities on internal and external communications for the organisation.

This growth increased internal capacity, so intentional adjustments could be made to the YouthCARE brand improving usability for our people, consistency and public recognition.

Adjustments included implementation of the curved brand element, a refreshed typography and purposeful content capture. The rebranding was scheduled in waves with gradual publication across traditional collateral and digital assets to include signage, corporate documentation, flyers, website and social media.

Guided by the strategic plan this refresh enables YouthCARE to become a household name that everyone knows and understands, opening more doors to support the needs of our WA school communities.

Launching YouthCARE Rewards

Providing attractive employee benefits was an important part of YouthCARE's Strategic Pillar to grow our people – making YouthCARE the employer of choice.

After surveying our staff and listening to their feedback on rewards, recognition and value we launched YouthCARE Rewards, an employee discount program where every dollar matters.

This exclusive benefit program is run through the Smart Spend app and allows users to access savings from hundreds of major retailers on the go. It is quick and easy for our people and their families to save on everyday purchases, holidays, movies and much, much more.

Developing ireflect

In 2023, we trialled the use of a wellbeing check-in app, iyarn, which enabled our teams to track how they were going with life and work through an anonymous questionnaire. A curated set of questions allowed the check-in to be customised for trial groups – internal staff and participating schools. This opened the door to intentional and meaningful discussions with a dotted line to forming new support pathways and proactive culture checks within each team.

Through the trial we observed how useful the tool could be as it enabled YouthCARE to extend a helping hand to our people and communities, proactively placing importance on wellbeing, because we all know how important it is.

Internal research conducted by iyarn revealed a direct correlation between check-in frequency and red flag reduction for users, demonstrating the positive impact the tool has on wellbeing. In 2024, YouthCARE, in partnership with iyarn, will launch our very own version called ireflect. This tool will be a continuation of the support YouthCARE already provides to both students and staff.
