Position Overview

Arturo is looking for a Senior Accountant as we build our finance and accounting function to support a rapidly growing InsurTech start-up in the fast-paced Artificial Intelligence and Machine Learning space. Reporting to the Vice President of Finance, this is a hands-on role requiring someone who is not afraid to get into the details and set things up just the way they like them, which is logical, intuitive and extremely organized.

About Arturo

At Arturo, “Property is Personal.” Arturo is on a mission to empower people by providing clarity around the past, present and future of property. How do we do it? By gathering, synchronizing, and analyzing imagery and other data surrounding properties, we provide property insights that drive faster, smarter, and more confident decisions. We turn data into intelligence, giving insurers the ability to better predict the unpredictable and protect customers from the unimaginable.

Our team of technologists, data scientists and innovators are channeling the power of machine learning to put technology in service of people. Our goal is not just to optimize the way insurance carriers serve their customers, but to give those customers the confidence to look forward, be bold, and live their lives fearlessly, no matter what lies ahead. To help people protect their most personal assets and the lives they’ve worked so hard to build. Because nothing is more personal than property, insurance has to be too.

Arturo’s artificial intelligence (AI) models help insurance carriers make smarter decisions throughout the policy lifecycle, from the property level to the portfolio level. Arturo’s AI-based platform helps insurers securely underwrite risks, efficiently allocate resources, and lower claims cost across their book of business, allowing them to focus on what matters most: the customer, and our shared commitment to protecting our world.

Our origin as a company developed inside of American Family Insurance sets us apart. We know the business like the back of our hand—because we were once part of it. Today, Arturo continues to

build solutions with customer success in mind. Arturo consistently adapts to an ever-changing professional landscape.

We are a start-up culture in every sense of the word...we hold a high bar, we lead with empathy, we expect creativity, operate with accountability, and strive for excellence in execution. We support our employees by providing a remote-first flexible work schedule, competitive benefits and a flexible time off policy.
