

# ORTHOTIC ENERGY STORING SYSTEMS

## Note:

*Patients must be casted in a corrected position.*

*Maintaining the desired position of the knee above the ankle. Utilizing a casting board of the desired heel height and maintaining the Valgus/Varus position desired in the orthosis.*

*This includes setting the 2 degree flexed positioning of the knee. A two part cast is recommended. Casting the AFO section, non weightbearing . Then extending the cast up the leg in a standing, weight bearing position.*

## Orthometry

# KAFO
