

ODDITY SCHOLARS

Pre-doctoral Program

Are you a recent or imminent college or master's program graduate in biology, chemistry, bioengineering, chemical engineering, etc. who wants industry exposure before a PhD program?

ODDITY Scholars is a 2-year program where you can work on the edge of scientific development and consumer applications.

You will receive:

- 2 years of stipend (\$65,000 per year) with additional benefits (401K, health, dental insurance).
- An additional **\$50,000 bonus** (all to you) when you start your PhD program.
- 1-on-1 mentorship from amazing PhD scientists on scientific direction.
- Perform hands-on discovery work for new inventions from end-to-end at one of the fastest growing consumer companies (\$ODD).
- Joining the most innovative consumer biotech company in the world in our premier research lab in the heart of Kendall Square in Cambridge, MA (right next to MIT).

Requirements:

- Recent graduate (graduated in 2023 or will be graduating in 2024) from a top university (undergraduate or master's).
- Major in biology, chemistry, bioengineering, chemical engineering or related field.
- At least 1 internship in a research laboratory.
- **Ready to work hard and learn!**

Application deadline: April 30th, 2024

To apply, please email (to evanz@oddity.com) your resume and a cover letter (2 pages maximum) that answers the below prompt:

- What motivates you to do science?
