ABOUT US

We are a dynamic, innovative, design and manufacturing company – specializing in creating retail displays for your products. Our displays enable your products to gain maximum exposure in stores and capitalize your products' sales!

Over 70% of purchasing decisions are made in stores – our approach let's you gain more of the influence at the **POINT OF PURCHASE**, creating additional sales!

We streamline the supply process with all in-house expertise in retail design, display manufacturing and implementation for great brands! Our team is driven to convey the cutting edge in retail displays, while showcasing our clients' brands in stores! We strive to develop long-term relationships with our clients, by offering competitive pricing, exceptional service and quality products!

WHAT WE DO

CONCEPT DESIGN

Our talented design department will bring your product's vision to life! At no additional cost, we will render a realistic representation of your products in stores!

PROTOTYPE

Once the concept and quotation has been approved, we will (if required) manufacture a prototype.

DELIVERY/IMPLEMENTATION

After your stands have been packaged / wrapped, we deliver it to your premises, warehouse, or store via local delivery or our courier partners.

PRODUCTION/MANUFACTURE

Our facility is capable of manufacturing a prototype (at additional cost) for your perusal.

WHAT WE USE

Mild Steel

Wire

Plastic

Cardboard

WHY US

Turnkey Supplier

All our processes are in-house. From concept design and 3D renderings, through manufacturing to packaging. We are dedicated to taking the hassle out of your product

Registered Exporter

We are certified international supplier to clients across sub-saharan Africa, Europe, North & South America and Australia.

Over 500 Local clients & Growing

As the display provider of choice for a large and diverse client base, we are specialists in our industry.

Product Tracking

Each Display can be tracked to ensure the quality of manufacturing and finishes.

CONCEPT & DESIGN

CONCEPT

Starting off new projects begin with creative designs. Our team takes key aspects into account when working on display stand concepts: aesthetics, practicality, brief requirements and logistics to name but a few.

DESIGN

After our concept meeting we proceed with the product design. Here, the client's input is important. What should your product display offer?

PROTOTYPING

A key component in our manufacturing practice is prototyping. Our facility is capable of rapidly producing a working prototype, should it be required, for product placement or testing within a few days.

MANUFACTURING

Once a prototype has been approved we start with manufacturing. We use a variety of materials combined state-of-the-art technology in our manufacturing processes. We focus on quality & efficiency. Let's build your product.

DELIVERY

We are able to deliver nationally and internationally for exporting. Delivery in greater Gauteng is free of charge. If you're situated outside this area, one of our courier partners will deliver at a favourable rate.

TRACKING

At Delta Instore we take pride in our on time scheduled deliveries, even letting you the customer know where your products are at any given time when on their way to your facility.
