INTRODUCTION

This lovely Wimbledon house has been transformed to meet the demands for today's lifestyle. The house was completely refurbished and included rear extension as well as pushing up the attic to create maximum living space.

Traditional wooden windows were used to the front and main elevations in a crisp mint green colour. IQ Glass sliding and pocket doors together with Crittall-style glazing were installed in the extended living areas.

Grants Blinds designed, specified and supplied Blindspace concealment products where possible and used Silent Gliss blinds and curtain products for the main installations.

Grants Blinds

CONSULTANCY & SUPPLY

Grants are blind concealment specialists using Blindspace® concealment systems for standard windows, skylights and also gables.

We focus on working with architects and their clients on new build homes where this is of interest and can provide just the boxing so that provision generally can be made for the blinds and power supply can be brought to the areas and then supply the blinds later.
