

AIRS

AIR RESCUE SYSTEMS
RESPONSE / TRAINING + EQUIPMENT

2-UP

2-UP FEATURES:

- Eliminates the use of "MAP" Rings, multiple carabiner configurations, and webbing daisy chain systems.
- Designed to clean up the hoist-hook human interface by allowing 2 separate yet compact attachment points.
- Light weight.
- Provides for safe and efficient hoist insertion, extraction and rescue operations.
- Tactical OD Green available.

OPERATIONAL USE:

- Hoisting Operations.

GROSS WEIGHT: 1.2 lbs.

MATERIALS AND STRENGTHS:

- 30 kN, DMM captive eye, 3-stage auto-lock carabiners with ANSI rated gates.
- CNC'd from aircraft grade 6061-T6 billet aluminum.
- 2-UP hoist plate yields at an astounding 54kn (MBS).
- Sewn webbing rated to 30 kN.
