ABOUT SHEPHERD AERO

Founded in 2008, Shepherd Aero provides bespoke international aviation logistics solutions to the broker, manufacturer, and operator segments of business aviation.

Shepherd Aero also offers a complement of services for aircraft owners, including ferry, training, management, entry-into-service, and owner-trustee programs.

Our team members are strategically located around the globe to benefit our clients. We have operating bases around the contiguous United States, Hawaii, China, India, and South Africa.

OUR TEAM

INTERNATIONAL TRIP SUPPORT

Global expertise with a personal and tailored approach, offering complete, turnkey service for your complex international missions.

BY PILOTS, FOR PILOTS.

Our services were created by professional international pilots who fly and operate aircraft around the world.

DETAILED FLIGHT PLANNING.

- » Customizable aircraft performance profiles.
- » Landing and overflight permits.
- » Weather and NOTAMs updated continually.
- » Convenient web portal to view flight plans, update weather, and customize and request services, or modify profiles.

GROUND HANDLING.

- » Customs and immigration preparation plus eAPIS filing.
- » Discounted fuel arrangements from our network of providers.
- » Aircraft import and export coordination.
- » Hotel and ground transportation.
- » Survival equipment rental offered in-house.

AIRSPACE APPROVALS.

LOAs for performance-based navigation airspace with quick turnaround.

24/7 PERSONALIZED SUPPORT.

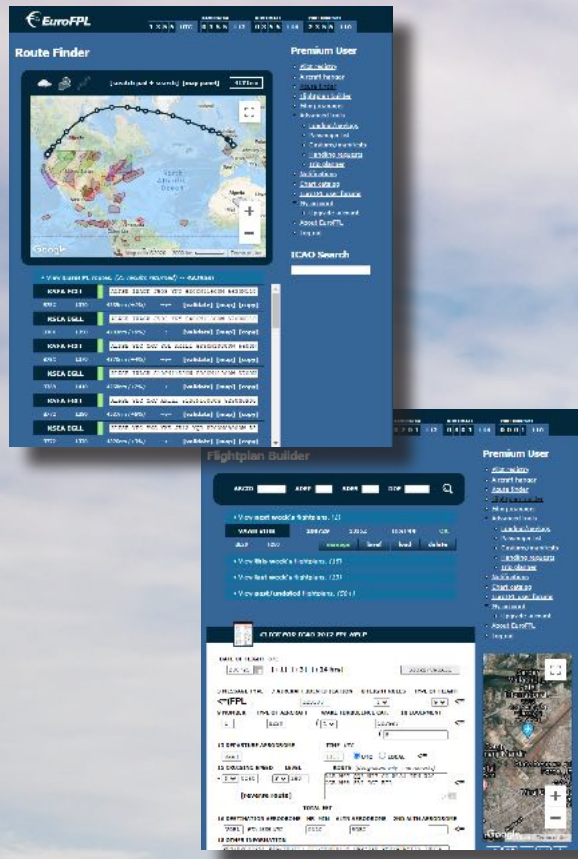

- » Our dispatch support and planners are located around the globe.
- » Local support, worldwide.
- » Custom requests: Special mission coordination with air traffic control, customs/immigration, and various aviation regulatory authorities.

GLOBAL FLIGHT PLANNING & FILING

THE TRULY WORLDWIDE TOOL FOR ANY FLIGHT OPERATION

- » A central hub for customized aircraft, pilot, and performance profiles.
- » Handling requests with an embedded AC-U-KWIK database.
- » eAPIS filing, PDC, integration with ForeFlight, Garmin Pilot, and others.
- » Radar based flight tracking and automated flight plan notifications via SMS messaging and email.
- » Integrated support for flights planned with company callsigns.
- » Dispatcher/pilot communications module, FAA-approved for operational flight releases and acceptances.
- » Pilot information portal that dispatchers can upload and share documents for view-only access.
- » Dynamic weather re-briefing and load manifest confirm/update/store for controlled flight operations (135/121/91k) to enable 100% EFB-based dispatch/release with full audit trails.
- » For advanced users, EuroFPL has a module to form and transmit permit requests via AFTN to foreign authorities.
- » IT & Development team is based in USA and regularly implements customer-requested custom features.

IN-AIRCRAFT JET TRAINING

One-on-one, in your own aircraft, with worldwide availability.

PROVEN CURRICULUM

We have earned recognition from the Federal Aviation Administration as an **FAA-Approved Part 141** Flight School. We also offer Part 61 training to meet a wide range of operator requirements. We specialize in the unique operational challenges of single-pilot resource management.

OFFERING INITIAL AND RECURRENT TYPE TRAINING IN...

- » Honda Aircraft HondaJet
- » Embraer Phenom 100 and 300
- » Citation 525-Series
- » Citation 510 Mustang
- » Pilatus PC-12
- » Piper P46T Models

FAA Certificate 443S060Q

Operating Bases (Part 141): KBLI, PHNL

www.shepherd.aero/training

IN-AIRCRAFT TRAINING

SHEPHERD AERO TRAINING IS...

- » **Rigorous.** Train to Airline Transport Pilot (ATP) standards with FAA-approved curriculum. Complete our training and you will pass the checkride.
- » **Exclusive.** One-on-one training, with fully typed and experienced instructors. Learn your exact airplane systems and parameters, not a simulator's.
- » **Flexible.** Train at your home base at your own pace. Or, come to our Bellingham, Washington headquarters.
- » **Insurance Approved.** Major underwriters have approved our training syllabus, and we will work with yours if they are not in our list.

PERSONALIZED AIRCRAFT MANAGEMENT

Maximize aircraft ownership and operation while reducing your investment of time and money with your own professional flight department.

A COMPREHENSIVE SOLUTION

- » **Management of Maintenance.** Every maintenance event, every cockpit update, all monitored and managed, as directed by an in-house Director of Maintenance.
- » **Worldwide Operational Scheduling.** Professional, in-house flight planning and dispatch. Every detail covered, including aircraft performance, weather, NOTAMs, permits, customs, ground services, and fuel.
- » **Crew Provisioning.** Worldwide crew placement for short or long-term positions, with flight standards, payroll, benefits, and tax administration all covered.
- » **Financial Accounting & Reporting.** Whether a small or large operation, ensure the right records for the right operations with audit trails.

THE SHEPHERD AERO DIFFERENCE

- » **Safety.** The laser focus on safety of a dedicated aircraft management company is nearly impossible to achieve with an internal flight department. Safety and compliance are at the core of every action and decision surrounding the aircraft operation.
- » **Control Expenses.** With our management fees less than 10% of the total cost of operating the aircraft, financial control, executed by a skilled operator, should save you more than the the management service itself. We carefully balance flight operational needs with necessary purchases to save money.
- » **Maintenance Control & Planning.** Jet aircraft are subject to dozens of separate inspections and life limitation requirements. Without guidance it is easy to inadvertently end up in violation. Effective aircraft management service can minimize downtime and cost of maintenance through the professional supervision of scheduled maintenance tasks, and the use of industry connections.

PERSONALIZED AIRCRAFT MANAGEMENT

FRACTIONAL AIRCRAFT OPERATIONS

Safely and legally share in the operation of turbine aircraft, whether you own an aircraft or need access to one. All operated under Shepherd Aero's FAA-Approved Part 91K Certificate.

HOW DOES IT WORK? FAA PART 91, SUBPART K...

- » Allows for regulated flight operations where operational control remains with the owner or lessee of the aircraft.
- » Is for private, not-for-hire use by individuals and companies.
- » Enables flight crew and airspace authorizations (LoAs) to be shared between owner and lessees.
- » Requires FAA-approved training, maintenance, and flight operations.
- » Offers improved accessibility to permits and landing slots at airports compared to commercial operations like FAA Part 135.

FAA Certificate 443K060Q

FRACTIONAL AIRCRAFT OPERATIONS

BENEFITS FOR AIRCRAFT OWNERS...

- » **Generate Revenue.** Lease blocks of time in your aircraft to third parties to defray operating expenses. You set the terms and price.
- » **Share Your Aircraft, Legally.** Allow friends and business partners to utilize your aircraft with certainty that all regulations are being followed.
- » **Exchange Hours.** Utilize other aircraft in our fractional ownership program, widening your operational capabilities.

BENEFITS FOR AIRCRAFT LESSEES...

- » **Minimal Financial Commitment.** Lease time in an aircraft, with hours of usage depending on your needs, with a minimum of 50 hours annually.
- » **Simplified Operations.** No need to worry about owning and maintaining your own plane or hiring flight crew.
- » **Regulated for your Safety.** Operating under Part 91K means there are operational requirements and certifications, enhancing safety for you and your family.

TRUSTEE SERVICES

Owner Trustee Services from Shepherd Aero provide non-U.S. citizen aircraft owners a discreet, safe, and cost-effective solution to owning U.S.-registered aircraft.

WITH SHEPHERD AERO YOU GET A PRODUCT THAT IS...

- » **Discreet.** Client confidentiality is at the core of Shepherd Aero. Public aircraft registration records show the name of the Trustee.
- » **Safe.** Our trust agreement is filed with the FAA using insured and bonded escrow agents.
- » **Cost-Effective.** We offer comprehensive client coverage at the best rates in the industry.
- » **Flexible.** Whether needed short or long-term, Shepherd Aero can accommodate and create a custom solution.
- » **Fast.** We can complete most transactions within one week.

BY OWNING AN FAA “N-REGISTERED” AIRCRAFT, OWNERS CAN BENEFIT FROM...

- » Higher resale value
- » Increased access to global airspace
- » Worldwide-recognized FAA maintenance
- » Access to the largest pool of pilots and maintenance support worldwide

USING AVIATION TO BETTER THE WORLD

Shepherd Aero encourages finding ways to use airplanes to improve the lives of others in need. Here are some of the organizations we support.

A nonprofit, volunteer-driven organization that arranges free, non-emergency air travel for children and adults with serious medical conditions and other compelling needs.

Changing the Way the World Sees. Orbis is an international nonprofit bringing people together to fight avoidable blindness.

Tens of thousands of volunteers, donors and supporters advance the Make-A-Wish® vision to grant the wish of every child diagnosed with a critical illness.

Pilots N Paws provides an environment in which volunteers can come together and arrange or schedule rescue flights, overnight foster care or shelter, and all other related activities.
