

Accessing Grants and Funding Opportunities

The below sets out links to potential funding for your Warm Welcome space.

As organisations and spaces are different, and in different geographical locations, not all will be suitable. We urge you to check through the criteria and your potential fit before embarking on an application. Funding is high in demand but we hope some spaces will find the below links helpful and secure some much needed funding.

Top tips:

- Thoroughly check all application criteria and that you fit these before beginning any application
- Pick up the phone – most funders are happy to speak with you about what they'd like to see in any application and give you advice before you submit
- What would happen without you? If you can, paint a picture of why your space is needed. Using quotes and case studies from people using your space is often the best way of doing this.

Good luck!
