

**MANIFESTO**

At epda, our wealth of creative output is as diverse as our community itself.

From Scandinavian minimalism and the Bauhaus Movement to Turkish ornamental calligraphy.

Through the vineyards of Bordeaux and the villages of Tuscany. As far as the Babushkas of Russia:

we are the sum of decades of creative cultures, hard work and optimism. These many influences have shaped who we are today. We are a community sharing inspiration and valuing our differences.

We create a space where like-minded people can meet, exchange ideas, and grow together. Designers and agencies, both large and small.

We stand behind our customers and the brands that we serve. We act as the connective element in the industry value chain.

We believe in a spirit of generosity and in richness through diversity.

We share, we dare, we shine, ...  
and we build bridges to make our world of design  
accessible to all.

# MANIFESTO, 2022
