

AIR.WATER.SOIL.

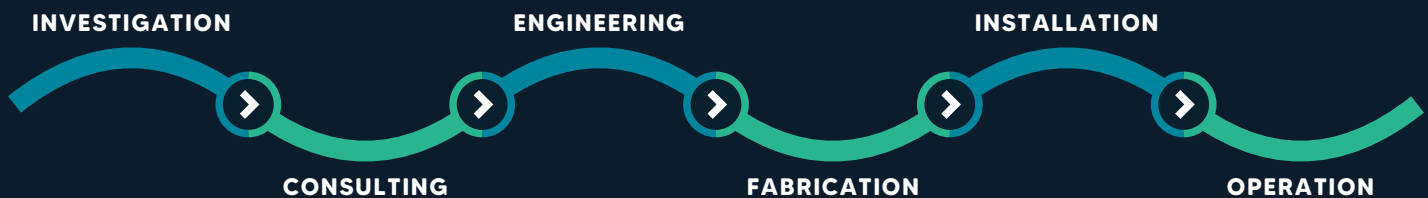

COMPREHENSIVE ENVIRONMENTAL REMEDiation.

Global Environmental is a comprehensive remediation service provider that expertly resolves air, water, and soil contamination. We tailor our extensive engineering and treatment solutions to meet the unique requirements of each project, while adapting to the evolving compliance landscape and diverse needs of all stakeholders involved.

REMEDiate. RESTORE. RENEW.

Our dedicated team of engineers, geologists, and technicians collaborate closely with clients, consultants, and contractors to ensure seamless integration with efficient deployment for optimal treatment outcomes.

As a woman-owned small business, we take pride in offering over three decades of expertise and innovative problem solving as a full-service engineering firm and treatment provider. Throughout our journey, we have developed cutting-edge remediation equipment and treatment systems that can be customized for specific project requirements, or delivered turn-key for quick mobilization.
