

Urea (Nitrate) Multi-Use Tests

DR-0020

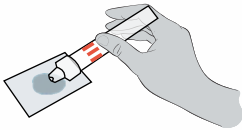

Read Before Use

As a precaution, gloves and eye protection should be worn when handling substances and using test units. If a spill occurs, thoroughly rinse affected area with water. Keep out of reach of children. Store the tubes in a dark place, not exposed to light. All results are presumptive.

This test consists of one tube. Since the tube contains enough liquid to test many samples, do not dispose of the tube until all desired samples are tested. For additional tests with the same tube, take a new sheet of test paper from the pad to test the next sample.

Test Preparation	Substance		Traces
	1 Remove a sheet of test paper for every test from the dispenser. 	2 Touch the test paper to the suspected substance. 	Wipe the test paper across the suspected surface. 

Urea Test	Initial Use: With thumb and forefinger , squeeze the Tube until the ampule breaks.		4 Open the cap and apply a drop to the sampled area of the test paper.
	3 	4 	

Results	The appearance of a bright-reddish color <u>within 1 minute</u> indicates the presence of Urea .	
		

Storage & Disposal	The tubes contain enough liquid for multiple tests. Replace cap after use for storage and further use. When finished, the tubes can be discarded in the trash. <small>ENG V2.0 01-22</small>
