2018 ANNUAL REPORT

A MESSAGE FROM THE EXECUTIVE DIRECTOR

Daniel Ramos, One Colorado
Executive Director

I want to thank everyone for all of the wonderful support that One Colorado has received since its founding in 2010. I'm excited about the work this incredible organization and its supporters have accomplished thus far.

With you by our side, One Colorado and our allies have a legacy of out-organizing the anti-LGBTQ opposition to win again and again here in our home state of Colorado. In 2018, I admit— it is easy to be discouraged in the face of the power and influence our opposition now wields.

But when I think about how all of us have

banded together to fight back and defend victory after victory, I know that our movement is just getting warmed up.

From defeating a wave of religious exemption bills at the State Capitol, to signing civil unions into law, to passing inclusive hate crime protections and anti-bullying measures, and just this spring, reauthorizing the Colorado Civil Rights Division— our movement has a legacy of victories in its recent years. We've accomplished so much in the past couple years, I can't wait to see what we can achieve together to make Colorado a more fair and just state for ALL.
