

T15000

T15000

This remarkable rig can drill 350mm diameter holes in just about anything up to 22m deep. The rig can operate inside buildings and tunnels with its remote power pack design. Its small size has given contractors greater flexibility in hole placement and design. Existing structures can now be worked around rather than removed, thus saving time and expense.

Its outstanding features are:

- Restricted access, restricted headroom capability
- Four hydraulic stabilisers as standard
- Rubber tracks for less footprint damage
- Mast tilts for and aft and side-to-side
- Remote power-pack

Technical Data

Height when drilling	2400mm
Transport height	1700mm
Minimum width	720mm
Maximum width	1020mm
Length	1800mm
Weight	2500kg
Mast length	2200mm
Max torque	1500Nm
Towable power-pack weight	1250kg
Power-pack width	1400mm
Power-pack height	1400mm
Power-pack length	2800mm
