The Klemm 708 is a multi-purpose drill rig for all drilling systems. A series of options is available to provide the optimum rig configuration for a particular drilling process:

- Rotary heads up to 27 kNm torque
- Hydraulic clamping and breaking device for casings up to Ø 508mm
- Cable winch up to 20 kN (4,400 lbs) pull-force
- Slewable cat-head for winches up to 10 kN (2,200 lbs) pull-force
- 2-speed motors for rotary heads and hydraulic drifters
- Slide with lateral displacement
- Section mast, for different head rooms adaptable

The rig conception allows an easy dismantling of the complete basic unit from the crawler base.
