ANNAPISI Meeting
January 10, 2024

Attendees: Dominique Bealin, Jose Perales, Alisia Eckert, Joe Filkins, Abdul-Malik Ryan, Jane Baron, Lauren Miller, Li Jin, Maria Ferrara, Daniela Sran Raicu, Sarah Weisz, Patricia Nicandro, Shajuan Young, Amanda Noascono

• DePaul Lunar New Year celebration will take place on February 9. Li Jin will share the flyer with the group.
• The application has not opened yet. Usually opens around mid-January.
• Joe reviewed previous application to get a sense of the data that will be needed. The data seems straightforward. Joe will look ahead of time to see what the ANNAPISI percentages are.
• Sarah will help write the narratives and Joe will manage the data.
• The eligibility application seems straightforward, but after that, we will need assistance from the group.
• Joe may need assistance will definitions and will reach out to the group for help if needed.
• There are lots of survey data and reports on the IRMA site. Joe will send out to the group which can help formulate the ANNAPISI smaller groups such as student retentions, student engagement, etc.
• It would be helpful to gather qualitative information so we have a better idea of what we’re going to include in the application.
• Last meeting we discussed creating a survey to send out to students. It was recommended to look at IRMA’s data first to see what is captured and then we can create a survey if some questions weren’t captured.
• Faculty/Staff climate survey is going out this spring. Joe will share the link so it can be reviewed. Let Joe know if there are any questions missing that we’d like added.
• Joe, Daniela, Maria and Sarah need to be added to the TEAMS site.
• Ally will let everyone know when the application is available so we can begin working on it immediately since there is a small turnaround window.
