Q&A window

# Ganz Security Products

---

The Ganz brand offers integrated system architecture across multiple market segments

- Video Management Software (VMS)
- IP and AHD cameras
- Intelligent Video Analytics & AI
- Recording and IoT Devices

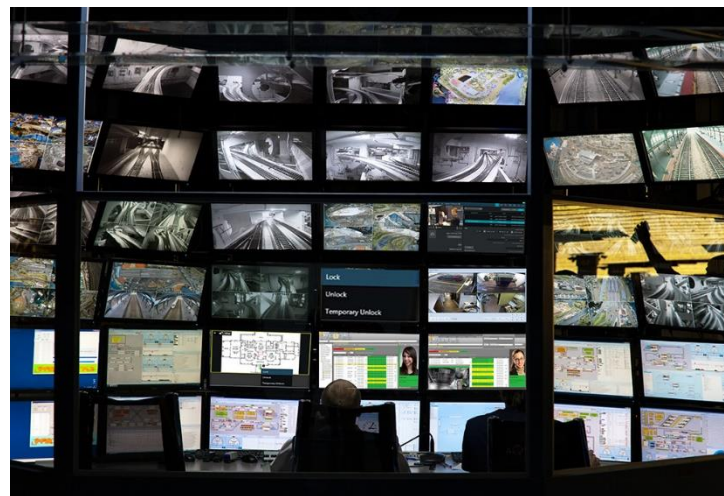

# Ganz CONTROL VMS

CORTROL unites actionable intelligence in a central security command center by delivering situational awareness, optimizing incident management and creating a safer environment

- Intuitive and User-friendly
- Two editions: Premier Standalone System and Global Enterprise system
- Machine Learning FR, LPR & VCA modules
- Highly secure encrypted camera and client communication
- Powerful event and action manager
- Real-time geolocation / map / mobile-tracking
- Multiple access control integrations
- No costly SSA agreements

# Cameras

## GANZ PixelPro

IP Bullets, Indoor and Outdoor Domes with exceptional image quality up to 4K.

AI Models Available

## GANZ GENSTAR

IP and AHD Bullets, Indoor and Outdoor Domes up to 4MP

12MP  
Fisheye

# PixelPro Cameras with GXi Video Analytics

- Real-time video analysis including people & vehicle counting, stopping, dwell, intrusion, directional, and tailgating detection
- WDR with tone mapping
- Edge recording to SD card
- Smart IR, PoE
- Remote zoom / focus
- Domes and bullets up to 5MP
- 20MP 360° surround view IP dome

# Ganz Recording Devices

## PIXEL MASTER

4, 8 & 16 Channel Embedded NVRs

## DIGIMASTER

Multi-Format Recording Devices

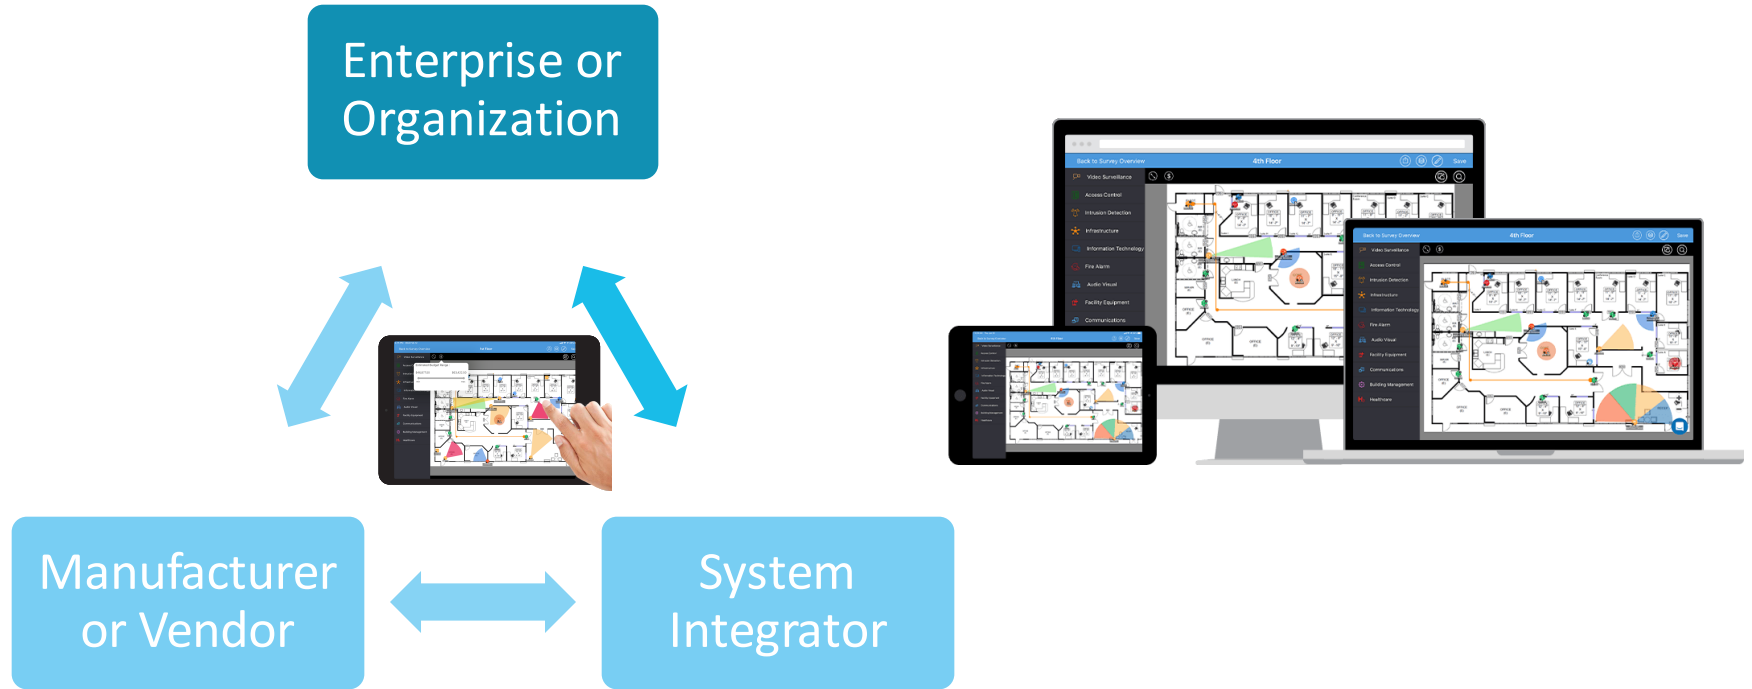

# ZNR Servers

- Features Intel's industry leading server-based hardware
- Servers can be pre-loaded with CORTROL VMS
- Available in 2U, 3U and 4U chassis
- RAID 6 servers with Hot Swappable drives
- OS available on SSD
- HDD up to 200TB

# Collaborating for the Best Solutions

# Solution:

## Collaborative System Design Platform

Visualize and co-design with your customer. Win more jobs.

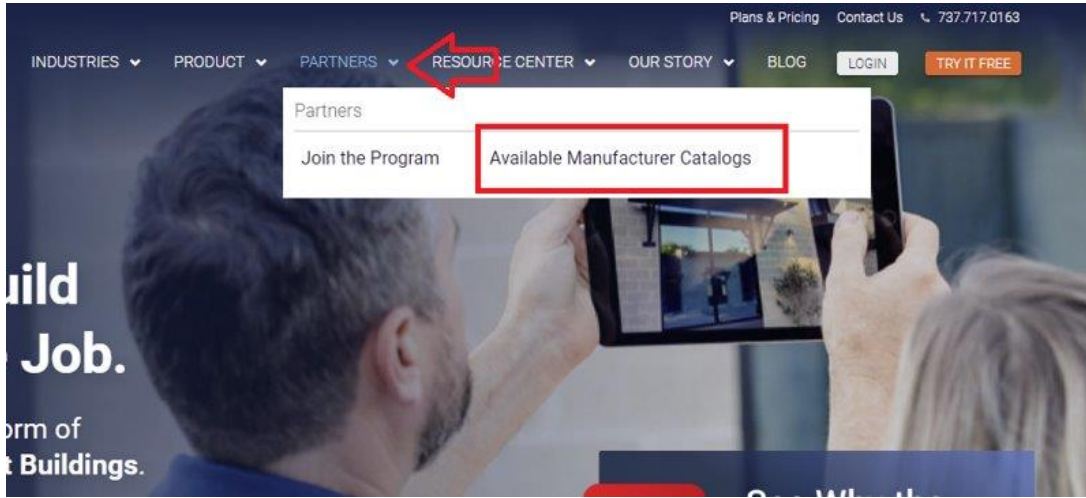

### Benefits:

- Sales collaboration enablement
- Double sales productivity
- Increase profit margins
- Reduce implementation times
