Kansas City's Homoly Design + Build Recognized as a Finalist for National Custom Home Builder of the Year

Homoly Design + Build, a premier custom home builder in Kansas City, MO., has been recognized as a finalist for the National Custom Home Builder of the Year Award by the National Association of Home Builders (NAHB). This prestigious recognition is a testament to Homoly's exceptional dedication and expertise in translating clients' visions into distinctive homes that elevate the standards of the home building industry. Homoly's commitment to excellence and innovation in High-Performance Building techniques for Residential construction has set a new benchmark for sustainable practices and quality craftsmanship in Kansas City.

Homoly earned this recognition through his outstanding efforts in High-Performance Building techniques. As an advocate for sustainable practices, Homoly is responsible for some of the first LEED-certified homes in Kansas City. As a local home builder for 25+ years, the Homoly team offers a turnkey design and build experience to ensure your project is delivered on time and at the highest quality.
