New Zealand Certificate in
Aviation Ground Handling

NEW ZEALAND CERTIFICATE IN AVIATION GROUND HANDLING (LEVEL 3) RAMP OPERATIONS STRAND, 61 CREDITS

The aviation industry needs Ramp Operators who are capable of working with minimal supervision within a team. With this level 3 Certificate, JNP Aviation Training will prepare you for employment in a highly regulated and safety critical work environment. This unique and exciting programme is delivered on-site in both classroom and on the job' environments.

Already working in an airport ground-based role? This ground handling programme can provide you with the skills, knowledge and qualification to support your current role and future aspirations. JNPAT will work with your Industry Training Facilitator to ensure you can complete this programme while you are working.
