COMPANY OVERVIEW

At Northwire, we take immense pride in our ability to service the nations rural stockists and fencing industry, with quality wire & associated products.

Our commitment to excellence and customer satisfaction has remained unwavering throughout the 40+ years that we have been in operation.

In 2018 the company was acquired by a passionate Australian business owner, who recognized the importance of Australian-made products.

Understanding the need for strong, local, manufacturing capability, the new owner embarked on a transformative journey to revitalize the Northwire brand.

Our highly skilled team utilizes advanced manufacturing techniques and quality materials to ensure that every product leaving our facility meets the highest industry standards.

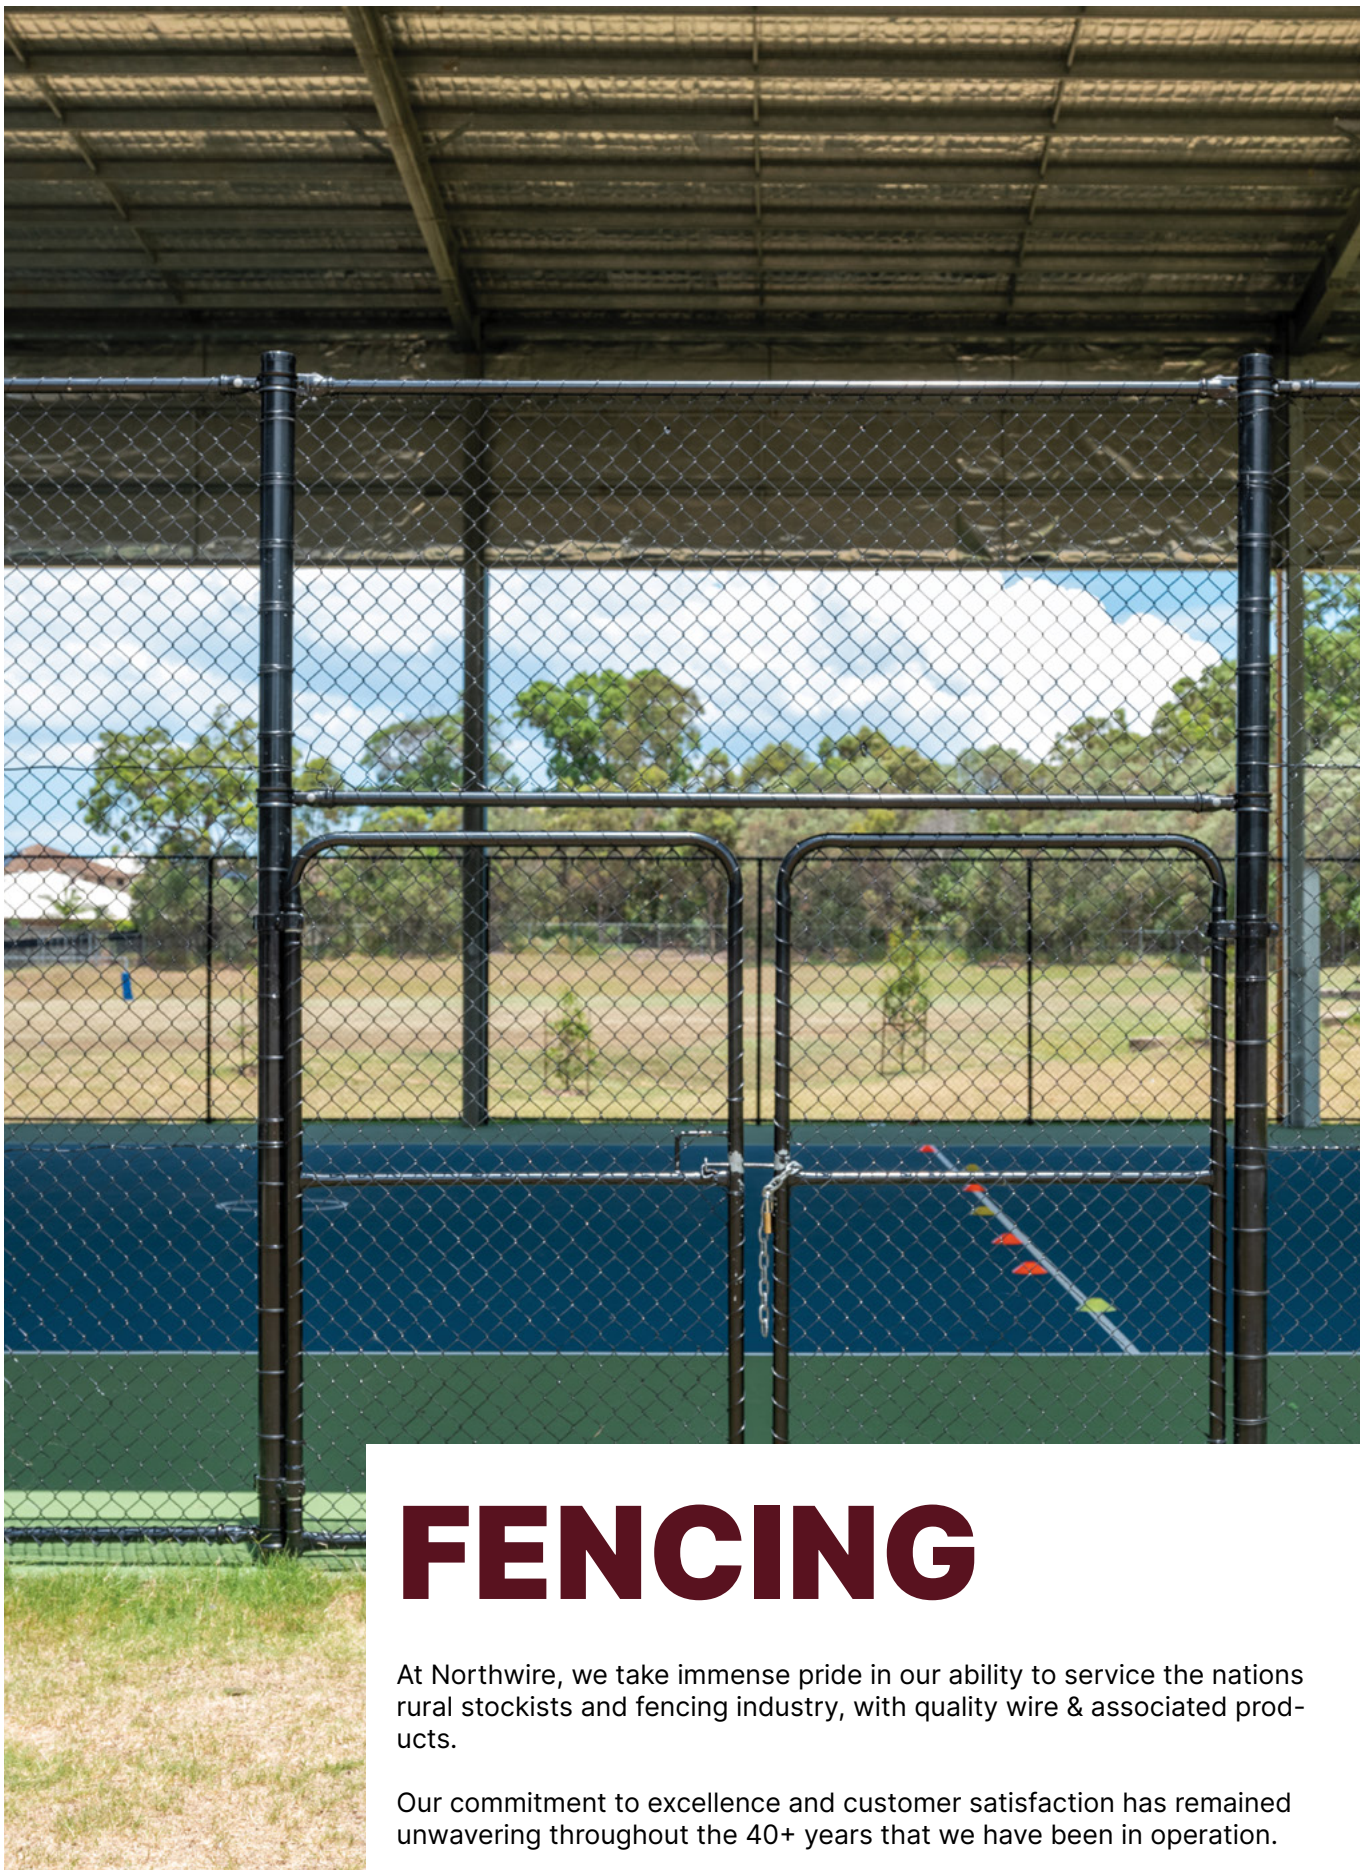

From the Australian farmer to the Commercial Fencing Contractors, we offer a comprehensive range of solutions.

Our state-of-the-art facility is strategically located in Pinkenba, offering easy access to major arterials and the airport. This prime location enables us to efficiently distribute our products nationwide and expand our reach through international exports.

As we continue to grow and evolve, we'll work closely with our customers to understand their unique requirements and provide them with tailored solutions that meet their specific needs.

With our extensive industry knowledge, Northwire is your trusted partner for all your wire fencing needs.

Choose Northwire and experience the assurance of quality, reliability and Australian-made excellence.

FENCING

At Northwire, we take immense pride in our ability to service the nations rural stockists and fencing industry, with quality wire & associated products.

Our commitment to excellence and customer satisfaction has remained unwavering throughout the 40+ years that we have been in operation.

CHAINWIRE

GALVANISED CHAINWIRE | PVC BLACK CHAINWIRE | PVC GREEN CHAINWIRE

Chainwire fencing, also referred to as Chain Link or Chain Mesh fencing, offers a versatile, economical yet robust option for all your boundary fencing requirements.

This style of fencing is renowned for its enduring nature and straightforward installation.

Chainwire fencing comprises interwoven galvanized steel wires that create an open-weave mesh structure, delivering a combination of robustness and visibility.

The mesh design not only provides physical strength but also allows for transparency, making it suitable for various applications where both security and visibility are paramount.

Manufactured from galvanized steel wire, Chainwire fencing offers long-lasting performance with minimal maintenance requirements.

This durability is a crucial factor unique to Chainwire's popularity and suitability for Australia's diverse climate conditions.

At Northwire, we take pride in offering a comprehensive range of chain wire options to meet your specific needs.

This versatility ensures that you can find the perfect chain wire solution to match your unique project requirements.

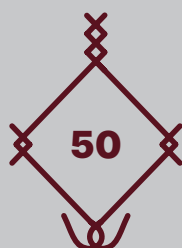

All Northwire's wire products are fully compliant to AS2423:2006 and AS1725.1:2010

Choose Northwire for all your Chainwire fencing needs and enjoy the benefits of great value, excellent quality and outstanding service.

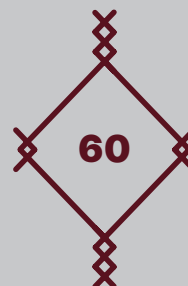

Our commitment to excellence ensures you have made the right choice.

GATES

At Northwire, we take pride in our capacity to create tailor-made fencing gates that align precisely with the unique demands of your project.

Northwire can design and manufacture custom gates that fit seamlessly into your fencing system.

When you partner with Northwire for custom fencing gates, you're investing in a personalized solution that not only meets but surpasses your project's requirements.

We are committed to delivering gate solutions that provide the perfect blend of functionality, durability, and security, ensuring the success of your fencing project.

Trust Northwire to turn your fencing vision into a reality with our custom-designed gates, backed by our unwavering dedication to excellence.

FITTINGS

Northwire stocks a collection of galvanized and Satin Black powder coated fencing components from established and renowned suppliers. Our comprehensive and practical fittings cover a wide spectrum of applications. Stocking top-tier products catering to the rural, residential, and commercial fencing sectors in Australia.

The main categories encompass:

- Pipe connection accessories
- Post caps and end caps
- Gate latches and strikers
- Gate hinges
- Flanges & hinge straps
- Farm/field gate hinge kits

All items are hot-dip galvanized in accordance with Australian Standards.

LINE AND TIE WIRE

TIE WIRE | LINE WIRE | HELICAL

Northwire offers an extensive range of Line and Tie Wire products designed to suit your requirements.

Our comprehensive selection comprises Tie Wire, Line Wire, and Helical, in various wire diameters, available in both PVC-coated and galvanized options.

This diversity ensures you can find the perfect wire solution to meet your specific needs, no matter the application.

We understand that projects come in various scales, which is why we stock these wire products in an array of roll sizes.

Whether you require a compact 50-metre roll for Tie and Line Wire or a substantial 1500-meter roll for Line Wire, Northwire has you covered.

Don't hesitate to get in touch with us for your next enquiry or project.

At Northwire, we're committed to delivering top-tier wire solutions backed by our dedication to excellence in customer service and product quality.

HINGE JOINT

Northwire's hinge joint fencing is a widely adopted and highly regarded prefabricated fencing solution manufactured in Brisbane.

This meticulously designed fencing wire is engineered to absorb pressure from the impact of small livestock and animals, retaining its original integrity once the pressure has been released.

Hinge Joint's unique graduated horizontal wires are designed to accommodate various animal sizes and offers an economical solution for rural and semi rural boundaries.

Trust Northwire to deliver excellence in animal containment, backed by our dedication to quality and innovation.

PORTABLE PANELS

Northwire takes pride in our portable panels that prioritize quality, specifically engineered to endure the challenging Australian environment.

We maintain a comprehensive inventory of panels tailored to meet the distinct needs of various livestock categories, including cattle, sheep, goats, and horses.

Our wide-ranging selection ensures you will find the perfect fit for your specific livestock management requirements.

Incorporating portable panels into your livestock yard construction, offers a multitude of advantages, including significant cost and time savings.

These panels serve as a versatile and efficient solution for creating secure enclosures, making it easier to manage and move your stock as required.

At Northwire, we understand the critical role correct equipment plays in successful livestock management.

Our portable panels are designed to withstand the rigors of the Australian climate and deliver the durability necessary for the long-term well-being of your livestock.

Invest in Northwire's portable panels to enhance the functionality of your livestock yards.

GATE IN FRAME

Northwire offers an extensive range of gate-in-frame products, carefully tailored to meet the diverse requirements of both you and your livestock.

When it comes to the efficient construction of livestock yards, our gate-in-frame solutions are a game-changer.

They provide a rapid and highly effective method for establishing secure enclosures for your animals.

These innovative products not only save you time but also ensure the safety and convenience of your livestock handling procedures.

Our gate-in-frame offerings extend beyond livestock applications.

We also provide personnel access gates in various configurations, designed to accommodate the specific needs of your operation.

These gates offer a seamless way for your staff to navigate the facility while maintaining safety and security.

At Northwire, we understand that the quality and functionality of gate-in-frame products are vital to the success of your livestock management system.

Our diverse range of options ensures that you can find the perfect fit for your unique needs, whether you're focusing on animal containment or personnel access.

Elevate your livestock yards and facility infrastructure with Northwire's gate-in-frame solutions.

Gate In Fram Gal 59 × 30 × 1.6 Oval Rail Sheep	6	2100	2200

MAN GATES AND MAN GATES IN PANEL

Discover the versatility of Northwire's extensive selection of man gates and man gates integrated into panels, offering a secure and efficient solution for navigating livestock yards.

When it comes to seamlessly traversing your livestock handling areas, Northwire's diverse array of man gates is your go-to choice.

These gates are not just about convenience; they are designed with safety and effectiveness in mind, ensuring that your movements within the livestock yards are as efficient as they are secure.

Our man gates, available both as standalone units and integrated into panels, are engineered to withstand the challenges of livestock handling.

These gates serve as a vital link in your operational chain, allowing personnel to move freely while ensuring the safety of both humans and animals.

At Northwire, we understand the importance of easy access within livestock yards, whether for feeding, health checks, or general management tasks.

Our man gates are meticulously designed to facilitate these operations while maintaining a protective barrier between livestock and personnel.

Invest in Northwire's man gates and man gate panel systems to experience a new level of safety and efficiency within your livestock yards.

Our commitment to quality and innovation ensures that your livestock handling operations run smoothly, making your daily tasks more manageable and secure.

STEEL PICKETS

Northwire offers an extensive selection of steel pickets for your fencing and project requirements.

Our black bituminous tar coated pickets and hot-dipped galvanized steel pickets stand out as crucial choices for your upcoming fence installation project.

When it comes to crafting a sturdy and long-lasting fence line, the quality of your pickets is paramount.

That's where Northwire's diverse range of steel pickets comes into play.

Whether you're looking for enhanced durability or a sleek appearance, we have the right picket options to meet your specific requirements.

Our black bituminous tar coated pickets provide an extra layer of protection against the elements, ensuring that your fence remains robust even in harsh weather conditions.

These pickets not only offer a striking visual contrast but also promise longevity, making them a wise investment for your fencing project.

On the other hand, our hot-dipped galvanized steel pickets are engineered to withstand corrosion and rust over time.

This means your fence will maintain its structural integrity and aesthetic appeal for years to come, with minimal maintenance required.

When you choose Northwire's steel pickets, you're not just acquiring fencing materials; you're investing in the security, aesthetics, and longevity of your property.

Make your next fence line project a success with our high-quality pickets, backed by Northwire's commitment to excellence.

Iowa	Heavy Gal	2.50	400

GAL PIPE

Northwire proudly ranks among Queensland's largest distributors of galvanized pipe, offering a comprehensive range of products to cater to your diverse needs.

Whether you require full slings, part slings, custom-cut lengths, or fabricated posts, Northwire has you covered.

Our dedication to efficiency is underscored by our full sling cut service, ensuring that your order is promptly prepared and ready for use without unnecessary delay.

We stock a variety of pipes, including AS1074 and AS1163 certified options, assuring you of high-quality products that comply to industry standards.

Enhancing our selection is our inventory of Satin Black powder-coated pipes, locally treated to guarantee top quality with minimal handling.

We offer both full-length and cut-length options across a wide range of sizes, providing you with the flexibility to match your specific project requirements.

Feel free to reach out to us for your next enquiry or project.

Our team is ready to provide you with top-tier customer service, along with the exceptional product quality and variety that Northwire is renowned for.
