

Your Asset, **Our Goal** - safe and efficient

Your gateway to the global logistics world

Our Expertise, **Your success**

Since its establishment in November 1993, LIC Spedition & Container-Logistik GmbH has continuously expanded its tailored logistics services on the global stage. Through the support of our valued customers and partners, we continually enhance our services worldwide.

The progress of our company is propelled by the dedication and drive of our team. We prioritize competence, readiness, flexibility, and innovation as the cornerstones for your logistical triumph.

Our team delivers comprehensive global services encompassing packaging, part-load shipments, heavyweight and oversized transport, hazardous goods handling, and LCL-/FCL-container services across all modes of transportation.

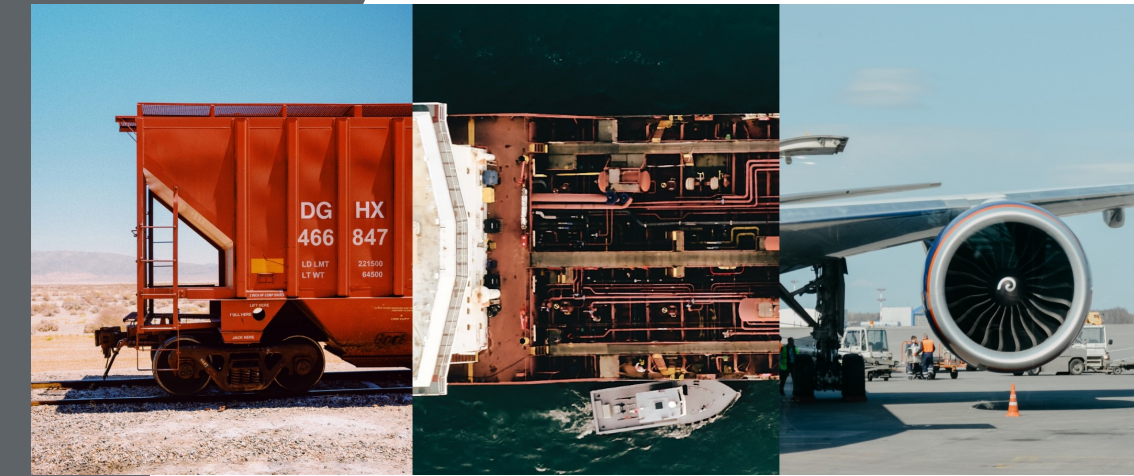

Through our network of international partners, we ensure a consistently high standard of service, guaranteeing competence across all sectors of logistics. Explore the following pages for a concise overview of our service offerings.

On the right course **with us**

Whether you order machine accessories from the USA, export dangerous goods from Norway, or whether you sell paints and varnishes to China, we will be happy to take care of the seamless transport for you from the shipper up to the consignee. No matter if you have crates, cartons, unpacked vehicles or complete container loads, we deliver your goods reliable and on time around the world.

You order the goods and we take care of the rest

In collaboration with our enduring partners, we extend to you a global freight and logistics service. You can rely on our proficient on-site contacts and expect a service level from our partners that mirrors our own, as they operate in a manner consistent with ours.

We transport your goods, no matter where

The cross-border trade of goods and services, as well as the outsourcing of work processes and production facilities, have long transcended national borders. We recognized these developments early on and committed ourselves to taking charge of your transport organization and creating effective logistics solutions.

Our independence as a pure freight forwarder and access to modern IT platforms enable us to offer high-quality and competitive transport options throughout Europe, including Great Britain and Ireland.

We exclusively collaborate with long-standing transport partners who undergo regular assessments according to our ISO standards. This ensures the expected reliability and top-notch service quality throughout the entire transportation process.

We give you **wings**

Not everything can wait. Some goods must be on-time or as soon as possible at the consignees site, let it be roses from Argentina or spare parts for a building site in South Africa.

When the time is short and the deadline is pressing you can count on us. Because there is no faster way for your goods than over the clouds. With our worldwide air freight service we can offer customized and efficient transport solutions.

- ✓ Worldwide consolidation services (im-/export) | Liner services
- ✓ Part & Full Charter
- ✓ Door-to-Door services
- ✓ Project Solutions | Crosstrades
- ✓ Courier services | OBC (On-Board-Courier service)

We take care of the fast and unharmed transport of your goods so that your customer doesn't have to wait – worldwide.

Service without borders

To deliver your goods well timed to your customer we encounter some geographically and customs limitations. Use our limitless custom broker service to ensure your delivery well timed. Whether it is an import from Far East or export to the USA – our team will help you with any questions and provide a high quality and customized solution.

- ✓ Export Customs Clearance
- ✓ NCTS-transit document
- ✓ SumA-depositary change
- ✓ Collective Customs Clearance
- ✓ Customs Finishing Process
- ✓ Import Customs Clearance

The new customs code by Regulation (EU) no. 952/2013 of the European Parliament and Council of 9th October 2013 has been gradually implemented since 1st May 2016. Our customs department is prepared for all the changes and is at your side with advice and action.

Our Team

This is how we generate innovation, efficiency and joint success.
