

BLUEWATER 23T

The 23t is tournament bred, incorporating virtually all the must-haves demanded by a true fishing fanatic. If that's you, this is your boat. We package the 23t with almost all of the options tournament-level anglers want, minimizing the amount of additional out-of-pocket expense required to complete the boat. In fact, the only items you'll want to customize are the T-top and electronics package.

The flush, one-level deck layout maximizes usable space and features the most storage and fish box area of any 23' boat. The true tournament cockpit is well laid out, with a 50-gallon circular livewell/leaning post combo and 10 standard rod holders lining the gunwales. Dual automatic bilge pumps are standard, as are twin independently plumbed and switched Shurflo bait-well pumps, to ensure you won't lose a well full of bait. A broad deck forward makes casting a net easy. High gunwales with ample toe room below and a wide, uncluttered cockpit give you maximum fish-fighting capability.
