SPORTFISHING BOATS

## BLUEWATER 2150

For serious offshore sportsmen, the Bluewater 2150 stands alone. It's not just that she has the prettiest lines in her class; you simply cannot find all this in another 21' center console boat: 35-gallon livewell with cutting board, two fish boxes with 600 quarts total capacity, a 102-gallon fuel tank and a large, fishing-friendly cockpit. The walk-through transom, side-door access to the console storage compartment, lockable electronics box and switched dual-battery system are other standard features not commonly found in boats of comparable size.

If all this sounds like the specs for a large center console design, wait until you step into the roomiest cockpit in the 21' class. get offshore in bumpy seas and experience the flat, dry ride! The only time you won't swear your 2150 is a bigger boat is when she is behind you on the trailer.
