**APPLICATIONS**

The Recorder Carrier is designed to have the ability to record pressures internally, externally, or both depending on the desired application.

By simply removing or inserting the pipe plug and choosing the proper caps for the recorder tubes one can achieve the desired pressure reading.

**PRECAUTIONS**

Ensure all O-Rings are properly installed and all locking screws are tightened before running into the wellbore.

The Recorder Carrier is not intended to be used during pipe recovery operations as this may cause damage to the instruments contained within the Recorder Carrier.
