

PURPOSE

Magnets are used to fish ferrous metallic debris from wellbore. The rare earth magnets are extremely powerful and can be manufactured to suit all tubing sizes. The side walls can be finished with magnetic or non-magnetic sleeves.

ASSEMBLY PARTS

1. Housing
2. Magnet

The magnet is retained in a metallic housing with the face of the magnet slightly inset to avoid being damaged.

PRECAUTIONS:

Care should be taken not to jar or impact the magnet surface as cracking or breakage may occur.

Care should also be taken not to place fingers or skin between the magnet and any ferrous material. These magnets are very strong and may cause injury.

**** Custom sizes are available upon request.****

Nominal Size		1.00"	1.25"	1.50"
Assembly Number		0501MRE100A0	0501MRE125A0	0501MRE150A0
Item	Part Name			
1	Fishneck	0501MRE10001	0501MRE12501	0501MRE15001
