

**PURPOSE**

The GG Overshot is designed to latch fishnecks that have been damaged and are not retrievable by conventional pulling tools.

ASSEMBLY PARTS

1. Top Sub
2. Housing
3. Collet
4. Cap

APPLICATIONS

The GG Overshot is generally used when there is a need to latch a fishneck that has been damaged due to corrosion, intense jarring, or deformation of the fishneck. The BT GG utilizes a collet to achieve a uniform grip on a damaged fishneck rather than just in a localized spots as conventional pulling tools do.

Nominal Size		1.50"	2.00"	2.50"
Assembly Number		0501GG150A0	0501GG200A0	0501GG250A0
Item	Part Name			
1	Fishneck	0501GG15001	0501GG20001	0501GG25001
2	Body	0501GG15002	0501GG20002	0501GG25002
3	Collet	0501GG15003	0501GG20003	0501GG25003
4	Cap	0501GG15004	0501GG20004	0501GG25004
