

## Part 2: Rethinking College Placement with EdReady: Q/A with Ivy Tech and Chattanooga State

a conversation w/

JUDY LOWE  
Chattanooga State

GWENN ELDRIDGE  
JESSICA HUFFMAN  
Ivy Tech  
Community College

Thanks for joining us! We will begin promptly at 2:00 p.m. ET.

- Use the "questions" area to submit questions as they arise.
- This webinar will be archived at [NROCnetwork.org](https://nrocnetwork.org).  
and you will receive a follow-up email with a link to the recording and slides.
- Do you need help with GoToWebinar? Email [memberservices@NROC.org](mailto:memberservices@NROC.org).

THE  
**NROC**  
PROJECT

**NROC  
collaborates with  
educators to**

**imagine, develop, test,**

**& refine**

**technologies that  
improve student  
success.**

## WEB-BASED TOOLS

Open and Designed for Institutional Customization

### Goals

### Knowledge Inventories

### Resources

**What do you want your students to be ready for?**

### Data Access

### Readiness

# Chattanooga State EdReady Placement Pilot

Past pilots, role in COVID response

# Implementation

- . 2014 – Used for Compass preparation/remediation
- . December 2016 – COMPASS – RIP
- . Dec 2016 – Begin as placement tool

- EdReady as remediation/preparation for entry students
- Completions were recorded in Banner, enabling students to take college level Math and English
- Advantages of Low Stakes Placement
  - Reduced Stress for Students
  - Push Placement to High Schools
    - Seniors in Spring Semester for Fall Enrollment at College
    - Juniors and Seniors to assist with Dual Enrollment
  - Improved Success to College Ready Placement
  - Improved Success in College Courses
  - Reduced Costs for Tuition
  - Increased Retention

# Ivy Tech Knowledge Assessment

# Implementation

- 2014: Began using EdReady as ACCUPLACER remediation
- Fall 2018, pilots using EdReady as placement
- March 2020, scaled use of EdReady for placement statewide
- Branded as Knowledge Assessment

## Scaling Holistic Placement...

- EdReady as remediation was branded as Ivy Prep
- Prepared students for their coursework
- Tool was customized to align with our math and English courses
- Completions were recorded in Banner, enabling students to take the course that they prepped for
- Scaled to campuses over time (18 campuses)
- In fall 2018, placement pilots began at three campuses
- Part of Ivy Tech's holistic placement process
- By May 2019, 20,000 active student accounts
- Edready placement fully scaled at all 18 campuses and for dual credit in March 2020

# Let's talk about HOW

Remember to share your questions in the chat.

## **Ivy Tech**

Our process came about in an effort to only assess when a student needed to and not assess for the sake of assessment.

# Approval for a Low-stakes Approach

## **Ivy Tech**

- Support came from leadership and assessment team
- College moved to multiple measures/factors, including HS GPA, SAT, student choice, EdReady option
- Faculty involved in creating and vetting content in reading/writing and math goals
- Cross-cultural implementation teams have helped to break down silos

# How

- 2014 – Used for Compass preparation/remediation
- December 2016 – COMPASS – RIP
- Dec 2016 – Begin as placement tool
- Customized EdReady English and Math Goals
- Multiple EdReady Diagnostics

- EdReady as remediation/preparation for entry students
- Completions were recorded in Banner, enabling students to take college level Math and English
- TBR had no solution for low ACT students after death of Compass
- NROC requested to move up completion of EdReady English for Dec 1, 2016
- Customization determined by collaboration between Academic Affairs – AVP & Testing Center & Student Services - Learning Support & Placement
- Late October, TBR suggested colleges do what they want to replace Compass. AVP of Student Services submitted EdReady solution

# Setting Up EdReady: Building the Scopes

## Ivy Tech

- Aligned content in the scopes with math pathways and Comp 1 course objectives.
- Allows students to demonstrate their knowledge/mastery in the pre-req.
- Knowledge that aligned with the program level course they are to take for their degree. i.e. a student taking quantitative reasoning, then they do not need factoring to be successful, but a student going for college algebra would need factoring, graphing, functions to be successful.
- One English goal and one math goal
- Cut score added (diagnostic)
- English: reading and writing
- Math: 3 goal keys (tech math, QR, 13X)
- Watching data to determine if we need to increase content in diagnostic and study paths for math.

## EdReady MATH Placement Format

Completion with target score of 72 allows entry to  
[Co-Requisite MATH + College Level](#)

### Test 1

Unit 1 – Whole Numbers  
Unit 2 – Fractions & Mixed Numbers  
Unit 3 – Decimals  
Unit 4 – Ratios, Rates & Proportions  
Unit 5 – Percents  
Unit 6 – Measurement

Completion of T1 and T2 with target scores of 72 allows entry to  
[College Level MATH](#)

### Test 2

Unit 7 – Geometry  
Unit 8 – Concepts in Statistics  
Unit 9 – Real Numbers  
Unit 10 – Solving Equations & Inequalities  
Unit 11 – Exponents & Polynomials  
Unit 12 – Factoring  
Unit 13 – Graphing  
Unit 14 – Systems of Equations & Inequalities  
Unit 15 – Rational Expressions  
Unit 16 – Radical Expressions & Quadratic Equations

Completion of T1, T2 and T3 with target scores of 72 allows entry to  
[Math 1130 & Math 1710 – above college level](#)

### Test 3

Unit 17 – Functions  
Unit 18 – Exponential & Logarithmic Functions  
Unit 19 – Trigonometry

1. Three Diagnostics allows
  1. Distinguish between requirements for
    1. Co-Requisite
    2. College Level
    3. Higher Level MATH
2. Allows students to realize early success
3. Ensure greater understanding through smaller unit groups

## EdReady English Placement Format

### Test 1

Completion of T1 with target score of 75 allows entry to Co-Requisite ENGLISH + College Level

### Test 2

Completion of T1 and T2 with target scores of 75 allows entry to College Level ENGLISH

- Unit 1 – Intro to College Reading & Writing
- Unit 2 – Identifying Main Ideas
- Unit 3 – Discovering Implied Meaning
- Unit 4 – Interpreting Bias
- Unit 5 – Analysis through Definition
- Unit 6 – Learning Across Disciplines
- Unit 7 – Exploring Comparative Elements
- Unit 8 – Informed opinions through Causal Chains
- Unit 9 – Applied Critical Analysis
- Unit 10 – Using Sources in Critical Reading & Writing

1. Two Diagnostics allows
  1. Distinguish between requirements for
    1. Co-Requisite
    2. College Level
2. Allows students to realize early success
3. Ensure greater understanding through smaller unit groups

## Ivy Tech Knowledge Assessment Alignment

- Aligned content in the scopes with math pathways and Comp 1 course objectives.
  - English: reading and writing
  - Math: 3 goal keys (tech math, QR, STEM)
    - Each goal for math is aligned with competencies needed for success in desired path.
    - For instance, a student taking quantitative reasoning would need ratios, proportions, basic statistics, order of operations. A student going for college algebra would need factoring, graphing, functions, etc.
- Allows students to demonstrate their knowledge/mastery in the pre-req.
- Cut score added based off of the initial diagnostic
- Watching data to determine if we need to increase content in diagnostic and study paths for math.

# Staff Training

## **Ivy Tech**

- Communication key
- Created support docs on process
- Canvas org, google folder, Teams group
- Implementation teams at each campus (cross-functional)
- Calls several times each week to start (training, questions, sharing docs)
- Chats every day on Teams as needed
- Each campus has a campus lead and K14 lead
- Supplying weekly reports for monitoring and follow-up

# Preparing Staff & Students

- **Staff**

- Learning Support / Placement / Testing Center

- **Students**

- Explained by Learning Support & Testing Center Staff

- Directors of Learning Support and Testing Centers prepared training materials for
  - When students need to use EdReady
  - What the score levels are for Math and English
  - How to explain EdReady is not High Stakes Test
  - Why to give students Placement document
- Students
  - Difference between High Stakes and Low Stakes
  - What EdReady does for the students
  - How EdReady works and what the completion score means
  - Why they need to begin in the Testing Center
  - Where they can get help while progressing through EdReady
  - What to do when the complete EdReady

# Rolling Out to Learners

## **Ivy Tech**

- Emphasis on low-stakes assessment
- Vision was for it to be offered in learning centers instead of testing centers
- COVID moved that vision forward faster than expected
- Communication via documents (student FAQ and how-to docs)
- Knowledge Assessment info on college website
- K14 team trained high school contacts (counselors and teachers)
- Positive response from HS partners

# Engaging Learners on the Study Path

## **Ivy Tech**

- Students are referred to Knowledge Assessment if they don't have other measures of placement (HS GPA, SAT, ACCU, self-place)
- Weekly data reports are used for follow-up with students.
- Campus leads keep spreadsheets that are used to track progress/follow-up
- Starfish used to share information between KA leads and advisors

# Working with the Data

## **Ivy Tech**

- NROC assistance with supplying weekly reports
- We add pivot tables to enable us to show summary data and to be able to sort by campus
- Use for follow-up with students

# Tracking Efficacy

## Ivy Tech

- Early pilot data show higher success rates in students placing with EdReady into the English co-req courses.
- Students taking the English co-req succeeded in the co-req course at a higher rate than those who placed by other methods.
- Some students who placed into higher math courses had lower success rates than students who placed by other measures. We are planning to adjust the math goals to provide more content in the study path. Also looking at the diagnostic content.

# General Results - MATH

## **MATH EdReady Students**

- Equal to or Exceeded all non-ACT placement
- Exceeded ACT placement in
  - College MATH 1030
  - Advanced MATH 1710
- Average ACT scores ranged from 26%-44% points lower than ACT placed students
- Exceeded both Repeat and Previous MATH students
- Minority Groups
  - Males - **67%** Pass Rate – Higher than all other non-ACT Placement
  - Females – **60%** Pass Rate – Higher than non-minority females

# General Results - ENGLISH

## • **ENGLISH EdReady Students**

- Exceeded all non-ACT placement
- Average ACT scores ranged from 26%-44% points lower than ACT placed students
- Minority Groups
  - Males - **83%** Pass Rate – Higher pass rate than all other Placement
  - Females - **78%** Pass Rate - Higher than non-minority females

# Considerations for Implementation

- How you will code EdReady placement completions?
- Integration with Banner (your EPR system) essential
- How will you track data?
- Think about comparing success rates for students who placed with diagnostic score compared to those who worked in the study path.
- Compare students who placed with EdReady to those who placed with other methods
- How might qualitative data from students inform your plan?

## MEMBERSHIP WORKS BEST WHEN PARTNERS:

### **Commit**

significant time and staffing to becoming facile with NROC courses and tools

### **Adapt**

NROC's suite of solutions to meet their students' specific needs

### **Contribute**

efficacy stories and original supplemental resources to the broader membership
