TECHNICAL

Extremely sharp and massive charms to turn nails into ferocious claws. No kidding it's pointy af so not for kids and don't scratch your eyes with.

You can stick them on your nails if you are craycray but I recommend to apply on TEXTO DALLAS® capsules, industrial capsules or self-constructed capsules with polygel. They are nice the longer part in front as the shorter part in front.

Those Charms have 3 different size: S ✕ M ✕ L

Each box contains a set with the size you picked + some stickers.

DESCRIPTION

The TEXTO DALLAS® claws are a classic creation I originally made for Cobrah and after the Boulet Brothers. I get tired of handsculpting them myself as they were required a lot so we 3d modelled these babies and to avoid any problems with capsules size, we sell the claws and let you stick them on your capsules. Also wearing them at a party gets you the attention of EVERYBODY.

TEXTO DALLAS®

All products are designed and made by TEXTO DALLAS® himself and his little crew.

All products are the intellectual property of the brand TEXTO DALLAS®.

Those products are not toys, they are forbidden to kids, it is forbidden to swallow them.
(wtf bro')

When you buy our products, you accept our policy of "Shipping & Return".

Due to a small production team and depends on your purchase (capsules or custom-made service) we can deal with your order between 3 days and 1 month.

We are not sharing your informations with anyone.
