

Contour Bendable Serrated Aluminum Channel

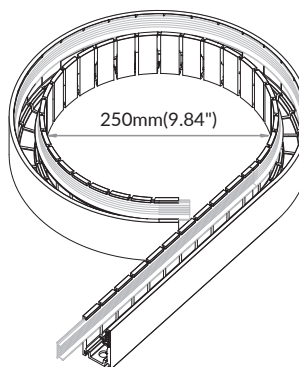

The Contour Bendable Aluminum Channel is an expanded design of our Standard Aluminum Channel with Silicone Grip.

This design not only maintains the grabbing force to protect the fixture from potential damage, but is also capable of bending to a desired shape.

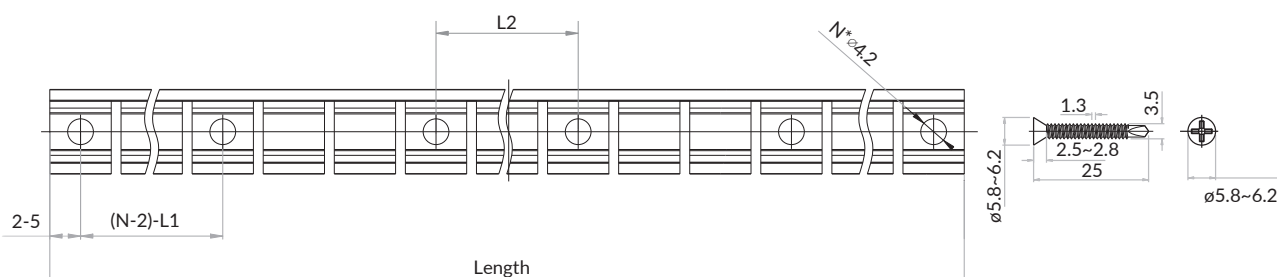

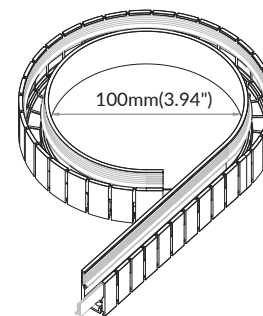

Dimensions (mm):

Min. Bending Diameter
(Toothed Side inwards)

Min. Bending Diameter
(Toothed Side outwards)

Note:

1. 2-5 refers to two of symmetric 5mm in each piece of profile.
 2. (N-2)-L1 refers to (N minus two) of symmetric L1 in each piece of profile.
- "N" hereby stands for its corresponding "Hole Number" in the below table

Part Number	Length	L1	L2	Slotted Hole	Hole Number
CH-09-F-AL-0M5-SE	500mm/19.68in	116.5mm/4.59in	23.3mm/0.92in	ø4.2mm/0.17in	6
CH-09-F-AL-01M-SE	1000mm/39.37in	116.5mm/4.59in	58.2mm/2.29in	ø4.2mm/0.17in	10
