Audio and
Bi-directional
Dopplers

D900 MkIII is an entry level, audio only, non-directional Doppler, principally used in the role of leg ulcer management.

- Compact and light-weight design for ease of portability
- LED lights for clear visual indication of power ON/OFF and battery status
- High sensitivity probes to maximize performance in a wide variety of clinical applications and procedures
- Audio output socket
- AA batteries for convenience and long term cost effectiveness

SD2 MkIII enables the vascular professional to easily see forward and reverse blood flow information.

- Large LCD display screen with blood flow direction indicator
- Combined Power On/OFF/Volume control for ease of use
- Visually distinguish mono or multiphasic blood flow
- Compatible with our complete range of high sensitivity vascular ultrasound probes
- Audio output socket
- AA batteries for convenience and long term cost effectiveness
