

Auto Retracting YoYo

The new Auto Retracting YoYo has been developed to work with a range of PPE equipment, especially safety knives.

- Keeping the user and knife together can significantly reduce loss or damage in a warehouse.
- The cord has a reach of 750mm however the YoYo body is extremely compact and lightweight.
- The YoYo can be attached easily and quickly to both the user and equipment.
- The Auto Retracting YoYo also assists in reducing the amount of knives used over a period of time. Therefore saving money and waste.
