

- Incorporated in 1976 and located in the beautiful Peninsula Region of southeastern Massachusetts, Cape Cod Academy is an independent coeducational K-12 school on a 46-acre campus.

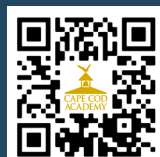

Home to beaches, forests and lighthouses, Cape Cod has long been a popular destination for elite Americans, with Presidential families including the Clintons, the Obamas and the Kennedys spending time there. Cape Cod also holds historical significance in the US as the location of the first permanent colony established in 1620.

Cape Cod Academy offers students a rigorous college preparatory program, with honors and AP courses, a technology curriculum, fine arts, science internships and the Personalized Approach to Learning (PAL) Program. The Atlantic coast and state-of-the-art facilities create a great learning experience inside and outside the classroom. Cape Cod Academy is also one of the few elite K-12 schools in New England with all grades open to international students.

**Fostering A Life-Long Drive
To Learn, Grow and Make
A Difference In The World**

CCA's Personalized Approach To Learning (PAL) Program Identifies Each Student's Unique Learning Style

- Each student has an individualized PAL profile and a customized approach to learning.
- The PAL profile is based on data generated through student information surveys and interviews, ensuring students are supported in effective and meaningful ways.
- PAL is particularly beneficial for gifted students, helping them to select advanced courses and reach their full potential.

The Learning Center Offers Academic Resources, Helpful Strategies or Supportive Coaching To Students With Questions And Challenges In Their Coursework

- 1:1 tutoring options are available.
- The Executive Functioning Coach helps students with skills such as time management, planning, prioritizing, initiating tasks, self-advocacy and problem-solving.
- For students with additional academic challenges, the learning specialists can provide a referral to additional on-site tutoring.

The Atlantic Coast Serves as a Classroom for Marine Courses

- Marine science, biology and conservation courses help foster an appreciation and understanding of the natural world.
- CCA offers boating safety certificate courses and the sailing team is a previous New England Champion.

Beautiful Campus With State-Of-The-Art Facilities

- The 46-acre campus is comprised of six buildings, outdoor space and an academic complex.
- The high-quality athletic facilities include an activity center, a basketball court, a gymnasium, tennis courts, an outdoor swimming pool and more.

Well-rounded, rigorous curriculum and a 4-year college counseling program that prepare students for college and career readiness

- 30+ AP and Honors courses are offered.
- The Winterim Program and Science Internship Program encourage students to explore their areas of interests.
- College planning starts freshman year and connects regularly with students throughout their time at CCA.
- Special Programming offers workshops, mock interviews, seminars and arts/athletics info sessions.
