

# Wedding Photography Guide

# A little bit about me

My photography style is a mix of candid photos as well as prompted and posed. My goal is to capture the essence of the day and all of the little moments in between. This creates a story of your wedding day for you to relive. With the day going by so quickly I make sure to photograph the details and the parts you might have missed, such as your guests having a blast.

# Client experience

"We had Cassidy photograph our wedding day and we couldn't have made a better choice. From the conversations before the wedding to after she took her last snap on the day she was so easy to work with. Every one of our guests commented on her energy and professionalism throughout. She organized shots throughout the day as well as lots of candid ones that let us relax and enjoy our time. We can't recommend her enough. Thanks Cassidy!"

- Alex

# Preparing for the big day

## Complimentary meeting

---

My goal is to become friends with you before your wedding, so I love to try and do an in person meeting or video call. This helps you to get really comfortable with me and allows me to capture your true personalities.

## Your vision

---

I love to hear your vision and my goal is to bring it to life. If you're a Pinterest fan like me, please feel free to share your board!

## Practice shoot

---

I offer 50% off couples shoots if you'd like to do a session before your wedding. This helps you warm up a bit and get comfortable in front of the camera.

# What I'll bring

## Two cameras

---

This allows me to quickly switch between lenses to capture different kinds of shots.

## Three lenses

---

I'll bring a zoom lens for the ceremony, a 35mm portrait lens for the group photos and landscapes, and an 85mm lens to get tons of depth for the couple photos.

## Dual memory card slot

---

Each camera has two SD cards, which provides extra security. When I arrive home from your wedding I'll upload the photos to two hard drives right away to ensure they're safe and sound.

## External flash

---

I'm well versed in flash photography, so I'll be able to capture your reception photos regardless of the lighting.

# Packages

*All wedding packages include an online  
gallery and complimentary meeting*

---

6 hours of coverage

\$3400

## Gold

---

8 hours of coverage

\$3900

## Platinum

---

10+ hours of coverage

\$4400+

# Notes on timing

Planning how the day will go helps you avoid feeling rushed, and ensures that no moments are missed!

## Travel time

---

The travel time between the ceremony and reception will need to be taken into consideration when planning the timeline of the day. This also applies if you're hoping to get photos at more than one location.

## Wedding day timelines

---

The following timelines are examples for each package, and can be adjusted to allow more time for specific moments that you want more coverage of.

## Seasonal variations

---

Your timeline for the day may vary based on the time of year and how much daylight we have. For example if you're hoping to get some shots during golden hour.

# FAQ's

## Online gallery delivery time

---

Typical turnaround time is 6 to 8 weeks after the wedding, however you'll receive a sneak peak within 24 to 48 hours. I like to choose photos from each setting so that you can see a bit of each part of the day.

## Second photographer

---

A second photographer is available for an additional \$75 per hour
