# GET TO KNOW HACKVILLE!

## hackville

Hackville is Sheridan College's **annual student-led hackathon**, hosting **200+ students** over the course of 36 hours to build, network, and have fun. **70%** of these students actively search for co-ops in the summer.

## What is a Hackathon?

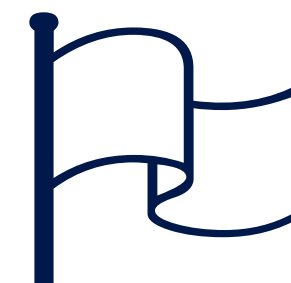

A hackathon is a sprint-like competition where students create novel and impactful solutions with technology. They will proceed to pitch these innovations to a panel of judges for a chance to win prizes in multiple categories.

Our participants represent a diversity of academic backgrounds. Past participants have come from:

50+  
schools

25+  
countries

## Our Goal

Our goal for Hackville 2024 is to present an opportunity for students to collaborate in solving real world problems, and gain industry knowledge.

# WHY SPONSOR US?

We are excited to continue to provide valuable experiences and we need your help.

**As a sponsor of Hackville 2024, you have the opportunity to shape the future generation of change makers in the tech space.**

Our event is your event and we'll work with you to fulfill your needs and make the experience valuable for all.

## Unique Hackathon Challenges

Our hackathon challenges are designed to solve problems on a system level in order to make it applicable to any industry, providing a valuable experience for our hackers and sponsors!

## Leveling the Playing Field for Under-represented Students

Hackville is dedicated to level the playing field for students from **non-target schools** and **non-traditional fields** because we believe great ideas come from anywhere! We also prioritize women and non-binary hackers to foster a diverse collaborative environment.

## One of Canada's First Student-Led Community College Hackathons

Community college students are often perceived as a third class citizen in the tech workforce. Hackville aims to revolutionize this and prove that

## PAST SPONSORS

A valuable hackathon experience is our main priority at Hackville. In the past five years, Hackville had worked with various industry partners to create the best hackathon experience for our hackers.

**and more!**

We're looking forward to hearing from you —  
let's create something *amazing* together.
