

PULLEY-GUIDE (for SQM-F device)

SPECIFICATIONS

Specially designed for SQM-F device. It helps to align correctly the wire/ tube into the SQM-F hole and avoid too much vibration during mea- surement operations.

- Use the needle indication on the scale to adjust the ceramic pulleys to the diameter of the wire/tube being measured.
- Each face of the SQM-F (inlet and outlet) must be equipped with a pulley guide. CERSA supplies a kit consisting of 2 sub-assemblies.

PRODUCT	PULLEY-GUIDE (1x sub-assembly)
General data	
External dimensions (L x W x H)	108 x 62 x 72 mm
Weight	Around 230 g
