

MongoDB SERVER TEAM

Company Highlights

- *Founded in 2008*
- *Headquartered in Warrendale, PA*
- *Microsoft MongoDB Database Experts*

Team Highlights

- *24x7x365 Database Support*
- *Guaranteed SLAs*
- *Manage Dozens of MongoDB Databases Daily*
- *Support Major HA Technologies*
- *MongoDB Performance Tuning*
- *Manage Major MongoDB Releases*

Testimonial

"Ever since we partnered with DataStrike, our company has become more productive and our MongoDB Database has yet to experience downtime. We can rest easy knowing if that happens, DataStrike is there to support us."

- Solutions Director, Business Technology

Dedicated MongoDB Experts

DataStrike's MongoDB services leverage our world-class 24 x 7 data operations center to provide integrated monitoring, management, and optimization of your "big data" analytical workloads. MongoDB has become the premier "document-oriented" NoSQL data store on the market. DataStrike has integrated MongoDB support providing uniquely seamless coverage between our client's RDBMS and NoSQL/MongoDB technical needs.

Products and Technology

| Database Versions and Editions | Advanced Features | High Availability and Recovery | Related Products |
|---|--|--|--|
| <ul style="list-style-type: none">• Versions - 6.x 5.x 4.4 (supported)• Versions - 4.x 3.x (unsupported) | <ul style="list-style-type: none">• Aggregation Pipeline• GridFS• Sharding• Document Field & Key Indexing• Unstructured Ad Hoc Queries• Schema-less Database• Document Key-Value Pairs• DB Profiler | <ul style="list-style-type: none">• Active-Active Architecture• Portioned DB with Sharding• Masterless or "Multi-Master" Design• Transaction Distribution• Cluster Control | <ul style="list-style-type: none">• Aggregation Framework• Data Visualization• Mongo CLI• Schema Tool• MongoDB Shell• MongoDB Compass• MongoDB Ops Manager |

Administration and Optimization

| Monitoring and Alerting Tools | Management | Performance Tuning |
|--|--|---|
| <ul style="list-style-type: none">• Logic Monitor• MongoDB Ops Manager• MongoDB Storage Node Watchdog• DataStrike custom scripts• Client alerting system | <ul style="list-style-type: none">• 24x7 Incident Management• User and Security Admin• CRUD Operations• Upgrades & Release Management• Sharding & Chunk Management• Backup/Restore• Disaster Recovery• ETL Solutions• Problem Management | <ul style="list-style-type: none">• Locking Performance• Connection Handling• Replication Sets• WildTiger Storage Engine• Document Indexing• Replication Lag |

Cloud Environments

Infrastructure as a Service (IaaS)

- MongoDB on AWS
- MongoDB on Azure
- MongoDB on OCI
- MongoDB in your Private Cloud

Managed Database as a Service (DBaaS)

- MongoDB Atlas (AWS)
- MongoDB Atlas (Azure)
- MongoDB DBaaS (Private Cloud)

Strategic Engagements

Strategic Engagements

- Performance Tuning Recommendations
- Shard and Replication Design
- Data Migration RDBMS to NoSQL

Strategic Engagements

- Active-Active Deployment Recommendations
- Community to Enterprise Upgrades
