### PRIORITIZED STANDARD

Delivery before 12:00 pm the next business day in Sweden and to most cities in Europe as well as the east coast of North America.

### EXPRESS

Tailored solutions for fast and secure delivery.

*Packing, shipping documents, customs handling, monitoring, and climate compensation are always included in our global services.*

## ELECTRIC VAN AND TRUCK

For larger deliveries, we have electric vans as well as trucks that can accommodate everything and then some.

## DIRECT EXPENSES

We can cover expenses for anything you might need, from a lunch to a small car.

## DOER / SPECIAL

Sometimes you need an extra hand. That's why we offer services where we can assist with tasks such as sampling assignments, short-term staffing, project management, serving, coat checking, receptionist, distributing discount coupons, conferences, costumed deliveries, DJ, bartender, chefs, internal moves, inventory, packing assignments, etc. You name it - we help you with everything and then some!

## SUSTAINABILITY

Our clients are located in Stockholm but our service extends all over the world. We consider ourselves to be the most environmentally conscious full-service company in Sweden. Our constant ambition is to carry out every assignment with the highest possible level of service and the least possible environmental impact. One aspect of this is that we only use electric cars for our assignments that require a car. Of course, we are also ISO certified!
